30 RCISD Bus Drivers Take 20-Hr. Course

Thirty school bus drivers from the Rice Consolidated Independent School District recently participated in a twenty-hour certification course offered by Region III Education Service Center of Victoria. A statewide effort is being made to provide the course to the more than 6,500 Texas school bus drivers who transport some 700,000 Texas school children over 617,000 miles daily. Transportation of pupils is an integral part of a sound educational program of which the school bus driver is a vital link. He must transport students to and from school and on extracurricular trips in a safe and efficient manner. To promote competency in this area, subjects in the recent course range from preventive maintenance to defensive driving, first aid, safety and emergency procedures, and procedures for loading and unloading. "Our children deserve to be transported with the maximum amount of safety. This is the goal of school bus safety. The drivers of Rice Consolidated School District are doing their part to make this goal a reality," said Supt. E. A. Krivacka.
