The RAIDER REVIEW is published by the Journalism classes of Rice High School, and the opinions reflected are of the students and not the administration, or the Eagle Lake Headlight, unless so stated.

RHS CLASSES ELECT OFFICERS FOR 1976-77 SCHOOL YEAR

(By Judy Spates)

After a run-off Tuesday morning, September 7, the class officers were announced over the intercom by Principal Fred Grammer.

From the senior class the four officers elected were: Thomas Carter for president; vice president, Julia Thomas; secretary-treasurer, Brenda Kallina; and reporter, Monica Hoffman.

The junior officers are: president, Jane Dostal; vice president, Russell Scott; secretary-treasurer, Gretchen Gold; and reporter, Lisa Mahalic.

The sophomore officers are: president, Robby Cook; vice president, Lisa Frazar; secretary-treasurer, Lori Mahalic; and reporter, Mary Young.

These students will hold their positions for the entire school year.

An interesting sidelight is the election of Thomas Carter for the fourth time. He is the first person here at Rice to hold the office of president of his class for the entire four years.

1. Each pronoun agrees with their antecedent.
2. Just between you and I, case is important.
3. Verbs have to agree with their subjects.
4. Watch out for irregular verbs which have crept into our language.
5. Don't never use no double negatives.
6. A writer mustn't shift your point of view.
7. When dangling, don't mess with participles.
8. Join clauses good, like a conjunction should.
9. Don't write a run-on sentence you got to punctuate it.
10. About sentence fragments.
11. In letters, themes reports articles and stuff like that we use commas to keep a string of items apart.
12. Don't use commas, which aren't necessary.
13. It's important to use apostrophe's right.
14. Don't abbrev.
15. Check to see if you any words out.
16. In my opinion I think an author when he is writing shouldn't get into the habit of making use of too many unnecessary words that does not really need in order to put his message across.
17. In the case of a business letter, check it in terms of jargon, unwise.
18. About repetition, the repetition of a word might be a real effective repetition—take, for instance, Abraham Lincoln.
19. As far as incomplete constructions, they are wrong.
20. Last but not least, lay off cliches.

New Year Is Observed In Sept.

(By Mark Hoover)

Rosh Hashana, which is two words for Jewish New Year, was celebrated last Friday. Rosh Hashana is the first of ten penitential days ending with the Day of Atonement and falls on the first day of the month Tishri, which corresponds roughly to September 10.

The Jewish year is divided into twelve lunar months with an additional month added every two or three years.

New Year's Day is described by the Jewish authorities as the annual day of judgment when all creatures pass in review before the searching eyes of Omnipotence. According to the Jewish belief, God on that day receives the report of Satan, the accuser in heaven, while the other angels, presumably friendly to the accused, plead their cause.

The customary salutation the Jews give each other on New Year's Day is "May you be inscribed for a Happy New Year," which contains an allusion to the Book of Life, in which the name of every living creature is entered.

Spirit Is Shown At Pep Rally

(By Debra Newsom)

Friday, Sept. 3rd, the first pep rally of the 1976-77 football season was held at Rice High School. The students showed lots of spirit.

The varsity cheerleaders led some yells and cheers. Then the band played "The Hustle." The cheerleaders introduced some new cheers and pep talks were given by Steve Epps, one of the Raider team captains, and Bill Carpenter, a counselor at Rice.

Freshmen students were awarded the spirit stick for their fine show of spirit.

Free Car Wash

Raymond Sykowski this is your ticket for a free car wash at Johnny's Kwik Kar Wash located next to Johnny's 66 Station in Eagle Lake. Cite this out and present at Johnny's for a free car wash effective through Sept. 31, 1976.

Auto Mechanics Students At Work

Rice High School auto-mechanics students are shown above working on some of their projects. Left to right: Mike Brewer, Anthony Priboda, Dale Thompson and Greg Bubala.

Auto Mechanics Classes Are Popular

(By Debra Newsom)

Twenty-five students are enrolled in the Auto-Mechanics class taught by Sidney Frey at Rice High School. According to Mr. Frey, more young men are interested in the class this year because they realize that the pay is good for mechanics. Six of last year's graduates who took the course in school have continued on in the field of mechanics.

Mr. Frey, an employee of Lake Motors for eleven years before coming to Rice, said that there is a constant need for equipment because of the ever-present changes in automobile construction. Mechanics are switching over to the metric system. This calls for metric tools, meaning increased spending and more class time devoted to learning the system.

Another problem the auto-mechanics classes face is the shortage of working space. Mr. Frey said that the class gets more cars brought in than they can handle due to space shortage.

Mr. DeShazo Is Now Teaching Algebra I

(By Judy Spates)

Rice CISD Assistant Superintendent Charles W. DeShazo has added another responsibility to his other daily duties. Mr. DeShazo, in his 23rd year in the district, is now teaching Algebra I in addition to his other assignments.

Mr. DeShazo states, "My goal in teaching Algebra I is to persuade my students to take Algebra II. And if I do this, I have reached my goal; in other words, I have succeeded."

Some of Mr. DeShazo's duties are recruiting teachers and evaluating teachers in the district, since there is a ten percent turnover each year. He is also the textbook custodian. He sees if the standards are met for each course and the creditations. He is a representative of WCJC and Prairie View A&M, and a member of the Houston and Galveston Area Planning Council. Mr. DeShazo also deals with the Title I program.

With all these duties that I have written Mr. DeShazo says he enjoys teaching the best, because he gets to know the students and learn more about them.

meeting will be held at the Holiday Inn in Galveston on October 16, 1976.

Students Are Scheduled For PSAT/NMSQT

(By Mark Hoover)

Rice High School's guidance counselors, Guy Beane and Bill Carpenter, have announced that sophomores, juniors and seniors will be scheduled for the PSAT/NMSQT on October 19, 1976.

will be able to take the Preliminary Scholastic Aptitude Test/National Merit Scholarship Qualifying Test (PSAT/NMSQT) this fall. The test, which is co-sponsored by the College Board and National Merit Scholarship Corporation, is an important step for students who are making plans for college.

The test is scheduled for October 19, and measures verbal and mathematical aptitude, two abilities which are important for college work. Students will later receive a booklet which contains their scores and also contains information about estimating their scores on the Scholastic Aptitude Test. It can also help them to find out where to get and how to use more detailed information about colleges, financial aid, and planning and financing a college education.

To register for PSAT/NMSQT test, students of Rice High School should contact their counselors as soon as possible.

STATE CAPITAL Highlights AND Sidelights

By Lynell Williams

AUSTIN — That proposed \$298.3 million Southwestern Bell Telephone Company rate increase isn't likely to go into effect until next year, if at all.

The company, under Texas Public Utility Commission rules, had to publish notice in newspapers for four weeks that it plans the raise October 7. That's 35 days from the day it filed recommended new rates with PUC.

The commission is expected to vote September 20 to require Bell to defend its request in public hearings. Hearings will be held during the next three months, and the regulatory agency has 125 days after October 7 to act on the rate case.

PUC attorney John Bell already has filed a protest that the rates are "excessive," and has requested that action be suspended during the 125 day period. His motions will be considered by the three commission members at the Monday, Sept. 20 hearing.

Also to be considered at the pre-hearing conference are the rates for the Texas Municipal League to permit city governments to intervene in statewide rate cases over which PUC has original jurisdiction.

Richard J. Hoyer, mayor of Monahans and chairman of TML's Public Utility Council, argues that all essential evidence pertinent to the rate case cannot be developed without interventions by city governments.

Aid Up Texas state and local governments are becoming increasingly reliant on federal aid. Comptroller Bob Bullock reported in a recent study.

Federal aid is now running about a fourth of all total revenue received by state government.

The study showed more than \$2.2 billion was received by Texas units of government in 1975.

The figure has been increasing about 15 per cent a year, but the increase slowed to 3.5 per cent and 3.4 per cent in 1974 and 1975.

Texas, which ranked fifth in total federal aid among the states, ranks 47th in per capita receipts.

For every dollar Texas contributes in individual federal income taxes to finance federal aid programs, it gets back 82 cents in federal aid, according to Bullock's findings.

Connally On Job Former Texas Gov. John Connally stepped in as head of the President Ford campaign in Texas after turning down national campaign assignments.

Connally said he expects an aggressive effort in the state, and thinks Ford can win by pinning down Democrat nominee Jimmy Carter on the issues.
