Wolf Problem In County Is Serious

Wolves Running In Packs

In Garwood Area

The problem of wolves It was noted by the delegation which are reported to be running in packs in this that this is the mating season county and doing heavy and probably the best time of damage to livestock and the year to begin the wildlife, especially to deer, trapping program. Judge was brought before the Cranek was authorized to Colorado County Commis- investigate a program of wolf sioners' Court Monday and trapping offered by the Texas the court authorized County A&M Extension Service and Judge Lester J. Cranek to also the possibility of getting investigate the possibility of a local trapper to take on the hiring a full-time trapper to task of ridding the county of perate in this county to wolves. It was also agreed by lleviate the problem. all involved in the discussion Billy Ray Krenek, foreman that consideration should be

of the L-7 Ranch in Garwood, given to hiring a competent Edwin Balusek, Boyd Rees and Jimmy Rees, also job to someone without Garwood residents familiar with the mounting wolf ilities of carrying out the problem, met with the court program successfully. and urged some action to halt the great increase of the predators in this county.

was well aware of the Krenek said that he had problem since he resided in been in contact with most the area and he pointed out landowners in the southern that the county had paid part of the county and all agreed that something should be done as soon as possible. killed in the county during He noted that on the Lehrer 1976. The bounty program ranch he had noted fourteen was said to be "inadequate" calves, all near accessible roads, that had apparently been killed by wolves and carcasses stripped clean. where real problems exist. It "There's no telling how was also noted that the many more there are in areas practice of shooting wolves where we are unable to from the roadway or across travel due to wet conditions," added Krenek. He said that it practice. is not unusual to see wolves running in packs now and since they are a cross with the coyote they are becoming more vicious and more active.

Deer Disappearing Balusek told the court that he lives in an area where deer used to be plentiful in numbers, but now there are very few deer and he expressed the opinion that the wolves are rapidly depleting the deer population as they attack the fawns. He said that he has on a number of the woives and found carcasses indicating that the food for their young.

wolves are using the deer for Raltusek said that he had been in contact with biologists who had tagged fawns in his area and that fifty percent of the fawns were lost within 30 days after being banded. He added that the woives often come to within a few yards of his home and said the problem is getting serious.

Both Krenek and Balusek agreed that the problem could not be solved by a short-time trapper since he would only remove wolves from a particular area and it be announced with a picture. wouldn't be long before and an article about her. others moved into the area. They advocated that a full-time trapper be hired and clean out the wolves and then keep them out. They pointed out that the county stands to members guessed the names lose a lot of revenue from of the songs and the singers. hunting rights if the walves Frances then played a tape of
