Mr. and Mrs. Joe Clement Fling

Miss Mercy Alvarado of Eagle Lake and Joe Clement Fling of Garwood exchanged wedding vows in a double-ring ceremony performed by the Rev. Dr. Elmer Hierholzer Saturday, March 10th at 2:00 in the afternoon at the Lehr Memorial United Methodist Church in Garwood.

The bride is the daughter of Mrs. Trine Alvarado and Manuel Alvarado of Eagle Lake. Parents of the groom are Mr. and Mrs. J. Curtis Fling of Garwood.

For the ceremony, a large pedestal arrangement of white mums and greenery with baby's breath decorated the altar.

Organist was Mrs. C. A. Blessington, aunt of the groom, who played favorite hymns of the couple and also the traditional wedding march. The bride sang "For With Time Our Father Has Brought to Pass."

Given in marriage by her father, the bride chose a beautiful wedding gown of nylon chiffon over acetate taffeta. It featured long sheer chiffon sleeves and a flowing skirt gathered in three tiers banded with lace. Frosted with polyester lace, the dress was fashioned with a ruffled neckline. Her veil was of soft nylon tulle with a headpiece of Venice lace. She carried a cascade of red roses and white carnations with baby's breath.

Attendants Serving the bride as maid of honor was her sister, Sylvia Alvarado. She wore a formal length dress fashioned of yellow sheer dotted Swiss nylon, flocked with daisies. Ruffles rippled around the neckline and shoulders and a yellow satin ribbon was worn around the bodice with long streamers toward a deep flounce in front. She carried a nosegay of yellow carnations, daisies and baby's breath.

The groom chose as his best man Marshall Capps, a law school classmate and friend from Vernon, Texas. Ushering wedding guests were Faustino Castillo and Larry Contreras.

### The great Modown 3-for-the-price-of-2 herbicide offer. Try it. Your weeds will hate it.

The weeds in your rice and soybean fields won't like this news at all—as a special introductory offer, Mobil Chemical is letting us give you an extra pound of Modown® herbicide for every two you buy this year.

As a post-emergent in rice, Modown controls dayflower, barnyard grass, sesbania and the aquatic weeds. And it keeps on working even after many herbicides have quit. As a pre-emergent, it controls all those weeds plus sprangletop. And because it works as a pre-emergent, you can be sure you're fertilizing rice—and not weeds.

With soybeans, Modown protects against velvet, jimsonweed, smartweed, pigweed, prickly sida, lambsquarters and fall morningglory. It works at one rate on all soils. And it doesn't add to chemical build-up in the soil.

Sound like quite a herbicide? Well, that's what makes this quite a deal.

So come in now and see the dealer who always gives you the best deals.

Mobil's 4-Fluoride is registered for use on soybeans only.

### Texas FHA Hero Week April 1-7

The Texas Association of Future Homemakers of America will hold FHA-HERO week from April 1-7. State-wide participation in the program will focus on "Opportunities Unlimited."

Everyone is a homemaker."

With an emphasis on consumer education, family life, and explorations in career fields, FHA chapters help young men and women prepare for their responsibilities as parents and adult citizens. Students are encouraged to participate in local, area, state, and national programs designed to promote leadership, self-confidence, motivation, and communication.

to work of these persons, and shorten the time they would be able to draw disability insurance.

There are other cost-cutting features in the bill. For example, important changes would be made in the administration of the disability benefits program.

Also, the legislation is designed to conserve funds through the maximum family benefits program, by establishing a maximum amount of total benefits that could be paid to a disabled worker and his or her dependents.
