"Spring Into Spring" Theme Of Rice FHA-HERO Banquet

"Spring into Spring with FHA-HERO" was the theme of the Future Homemakers' Parent-Student Banquet held in the Rice High School commons on April 10. About one hundred seventy-five parents, members and special guests attended.

After Marie Carter gave the invocation, a buffet dinner was served. Menu selections included barbecued ham and turkey, [illegible] broccoli spears, green beans, rice salad, slaw, fresh fruit salad served in watermelon halves, hot rolls, chocolate or lemon cake squares, with iced tea or coffee. All foods were prepared by homemaking classes except the meats.

The decorations on banquet tables and stage depicted a spring theme. Cardboard flowers, butterflies, a life-sized tree, and Snoopy in bright colors were the stage settings. Table decorations, napkins and programs were also in spring colors. At various intervals hurricane lamps enclosing candles and surrounded by circles of flowers were placed on the tables.

Fashion Show
The evening's program began with Debbie Jones giving the welcome, followed by a spring fashion show moderated by Mary Ann Miller. Thirty-two students modeled garments made in their homemaking classes. Music during the style show was provided by Michaelanne Hefner at the piano.

Talent selections were next on the program. Virginia Garza and Sharon Layton presented a dance number. Marie Carter, Kashara Pratt and Debra Mosley entertained with singing followed by Michaelanne Hefner's cute hobo dance. Denise Fudge then read a poem entitled "The Friend in Your Mirror". Mary Ann Miller, Barbara Leopold, Elizabeth Berger and Laura Mata enacted a humorous skit. After Jennifer Quinney sang "Mandy", special recognition and awards were made.

Awards Presented
Ninfa Peres presented Encounter recipients Emelie English and Arie Hewitt. They reached their encounter goals by giving services at the Heritage House.

Representatives to attend the FHA-HERO State Meeting in Fort Worth April 26 and 27 were then announced. Kashara Pratt and Denise Fudge will represent the Sr. Chapter; Debra Mosley and Reginal Hemphill are the HERO Chapter members who were selected; and Patty Stiles and Arie Hewitt are Freshmen representatives.

Norma Lira, Sr. Chapter president, presented pot plants to each of the sponsors to express her thanks for her year's experiences. She then led the group in the FHA Creed to close the program.

The Heat Pump:

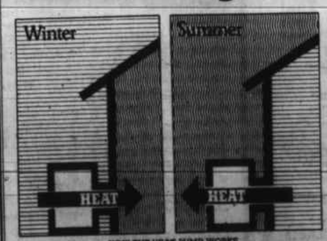
the most efficient system for heating and cooling.

If you are thinking about a new home or a new heating/cooling system in your present home, you need to know that you can save money on energy costs with an electric heat pump.

A heat pump makes use of the heat that is always present in air even when the weather is cold and cloudy. During the winter it removes heat from the outside air and pumps it into your house. In the summer it reverses the process and becomes an air conditioner, moving heat from the inside to the outside. You get the desired temperature indoors throughout the year.

Research shows that in the South Texas area served by Central Power and Light Company, the heat pump delivers about 2½ units of heat for every unit of electrical energy required to run it.

Be sure to consider the heat pump if you are in the market for a new heating/air conditioning system. It's an important device for using energy efficiently and economically.



HOW THE HEAT PUMP WORKS
In winter . . . the heat that is in the air is brought inside
In summer . . . the heat that is in the house is taken outside
