SAVE \$\$\$\$\$. SAVE FUEL

From the State Department of Highways and Public Transportation

According to recent surveys, the American driving public in general looks on fuel conservation at this time as a need to save money because of the escalating cost of fuel.

But what the drivers want to save money or to save fuel, the final result is the same - less fuel is consumed.

Many drivers once knew how to drive in a fuel-efficient manner, usually learned in a desire to conserve a high schooler's allowance for other pleasures. And many first-time car owners used every bit of know-how to up the mpg of their pride and joy.

The savings of those simple driving tips are substantial - as a one-time automotive editor discovered when he checked out a story.

The editor learned of a Southern California driver who could nearly double the average driver's gas mileage. Checking on it, the editor rented a car and drove it for several hours over Los Angeles streets. Later he met with the expert and asked her to follow the same route. Against his 13.7 mpg over that route, in the same car the expert got 23.33 mpg.

She explained her system, which she called "featherfooting," as driving as if there were an egg between her foot and the accelerator.

You can save money and fuel by using her tips - but don't use a real egg.

Garwood Takes Lead In CVLL; Sheridan In Third

Garwood grabbed the top spot in the Colorado Valley Little League during action last week, picking up two tough victories over the East Bernard Bears.

The wins give Garwood a 5-1 record and a two game lead over the Bears, 4-3, who hold down second place. Sheridan currently sits only a half game behind the Bears and could take over that position with two victories over the Bears on Tuesday and Friday nights of this week.

The East Bernard Bluejays are currently seated in the cellar of the league with a 1-6 mark.

Garwood was scheduled to host the Bluejays on Tuesday night of this week. This Friday night they will be in East Bernard to meet the Bluejays for the two teams' last meeting of the season.

Tuesday, June 12th
Last Tuesday night, both the Garwood farm team and A team hosted the Bears and took victories in their contests.
