## FHA Installs Officers

[By Rita Konek]

Installation of officers for the Future Homemakers of America chapters was held Monday, September 17, 1979 in the meeting room of the Rice High School. The newly installed officers are:

High School Chapter: President, Kashara Pratt; Vice President, Denise Fudge; Secretary, Laura Matur; Treasurer, Donna Jones; Historian, Rose Tili; Parliamentarian, Theresa Torres; Freshman Chapter: President, Kim Wunderlich; Vice President, Joanna Webb; Secretary, Leslie Harrison; Treasurer, Mary Leopold; Historian, Todd Heinen; Parliamentarian, Priscilla Dabney. Her Chapter: President, Dianne Cardenas; Vice President, Soledad Munoz; Secretary, Linda Salazar; Treasurer, Michelle Tesch.

After the installation of officers, the FHA's first business meeting was held with Kashara Pratt presiding. The members had

## Who's Zat?

[By Jenny Griffith]

This sophisticated looking young man's identity had many people puzzled. Only two out of eight people could identify him. There was a variety of different answers to the question, "Can you guess who this is?"

Victor Davis guessed this was Kenny Hyek; Janice Clipson guessed Timmy Leopold; Rose Tili guessed John Chisholm; Nova Mann guessed Wayne Bowen; John Stephens guessed Gary Joe Labay; and Mr. Carpenter, one of the school counselors, guessed that this was Philip Leopold.

Well, the only two people who did get it right were Wendy Ward and the school secretary, Mrs. Ripper. I'm not sure if it was just a lucky guess or they really knew who it was but they both said, "That's Scott Holden."

## More Recognition Of Spirit

[By Janice Waligura]

The Outriders is one of the most spirited and least recognized organizations on the Rice campus. This group of hard working girls is responsible for building up and promoting school spirit.

In the past, this group consisted of twenty members. Presently, membership has reached forty. The Outriders help the cheerleaders put up signs, hold run-throughs, and yell at all games. This group also has pom-poms to add to the yell.

Mr. Burkart, Freshman English teacher, taught the Outriders a routine to perform before each game.

I believe that this group deserves more recognition and support from the student body and communities. Let them know how much they are really needed.

## Student Council Meeting

[By Jenny Griffith]

Student Council held its second meeting of the 1979-80 school year on September 24. The officers discussed the selling of senior shirts to the seniors this year instead of selling the football jerseys as they have done in the past. The senior shirts include the names of all the 1979-80 senior classmates.

During the meeting, the student council unanimously voted in favor of getting new shirts for the student council members. The shirts will have "Student Council" printed on front and the member's name will be printed on the back.

## Annual Staff Attends Yearbook Workshop

[By Susan Konek]

Four Rice High School Annual Staff members and their advisor attended a Yearbook and Photography workshop on Saturday, Sept. 22 at the University of Houston. Sponsoring the event were the Taylor Publishing Company and the University of Houston.

## Meet The Raiders

[By Bert Tise]

This week we will spotlight two of our biggest and best linemen, Johnny Gonzales and Mike Rio, both juniors.

Johnny Gonzales, who wears number 68, this year, weighs 210 pounds and is 5'6" tall. While on offense he plays at guard and on defense he plays in noseguard. Johnny participated in varsity track last year, in addition to playing on the varsity football team. Johnny's parents are Mr. and Mrs. Alfred Gonzales of Eagle Lake.

# Attitude!!

[By Rice High School Student]

Today more and more students are attending school with the attitude of, "I don't care." Is that anyway to go to your classes? You have many opportunities open to you from just attending school. Is it fair for one who could care less to get special recognition while there is one student who has worked all his school years to be recognized and is overlooked? I'm not saying that this occurred here at Rice High School, but it has happened elsewhere.

Last week several of our football players were dismissed from Rice Raider football team. One of the main reasons they were dismissed is because their attitude was unacceptable, they didn't care. Is that the way they were brought up, to not care what happens or becomes of them? They have given so much to football in the past years and have suddenly let all their hard work and training go to waste. Are they quitters or what? Who knows what these boys could have had offered to them if they had continued to play football, maybe scholarships for example.

There are many of us who wish we could be blessed with the talent that these boys possess and yet they still didn't appreciate the fact that they could have one day used their talent on professional football teams.

Who knows? If every one in the world had the attitude of, "I don't care," can you imagine what the world would be like?

It's not just these boys with the, "I don't care" attitude, it's many of the students. I've watched students who give the teachers a hard time. I admit I'm no perfect person, but I was, at least, respectful to my teachers and appreciate the fact that they give me the chance to learn. I don't go to school to waste time, I go to school to learn. I'm also a student who doesn't want to learn and I also discourage the teacher. That teacher in the classroom has paid to go to college and learn so that he or she could return to teach us.

It's not easy being a student when your classmates or so called friends are taking away from you in the classroom.

I hope that this editorial has made many of you stop and think of how you behave in the classroom and how you show your teachers and classmates respect. Most of all I hope you have learned that the, "I don't care" attitude can not and will not be tolerated at Rice High School. We are all young adults with minds that are talented if we would just stop abusing them and begin to use them correctly.

## OES Holds Installation Ceremony

[By Julie Criswell]

The OEA Club held its installation of officers and members' night, September 25th at the home of Mrs. Margie Crab.

Before the ceremony began, a menu consisting of barbecued hamburgers, chips, dips, cookies and Cokes was served. After everyone had eaten, Mrs. Crab, OEA sponsor, began the installation with a brief welcome.

Each officer was installed by repeating an oath. The OEA Club held its installation of officers and members' night, September 25th at the home of Mrs. Margie Crab.

## WHIZ QUIZ

[By Pam Kallina]

Even people who work with energy facts and figures every day miss an occasional quiz question. Test yourself on the following multiple choice items on oil.

1. What nation produces the most oil? (United States, Iran, Japan, Saudi Arabia, Soviet Union)
2. What percentage of the world's oil production is consumed by the United States? (10%, 20%, 30%, 50%, 60%)
3. Rank the following in order of oil consumption: (Private automobiles, heating and cooling of buildings, generation of electricity, trains and buses)
4. Which form of transportation uses petroleum most efficiently? (Car, bus, train, airplane, subway)

The answers will be in next week's Raider Review.

# USE MIND AND MUSCLE

[By Janice Waligura]

Want to row across a lake? You need a rowboat and two oars. Simple enough.

Name the boat after yourself and name the oars mind and muscle.

One oar, mind, gives you the intelligence to direct the boat. The other oar, muscle, gives you the strength.

If you use only the mind oar, your boat will go around and around and get you no place.

If you use only the muscle oar, the result is the same. Only when you use both mind and muscle can you move that boat.

Only when you use those same oars can you move yourself.

One comment remains: Row as hard as you can.

When things go wrong, as they sometimes will, when the road you're treading seems all uphill, when the funds are low and the debts are high, when you want to smile, but you have to sigh, when care is pressing you down a bit, Rest if you must, but don't quit.

Life is queer with its twists and turns, As every one of us sometimes learns. And many a fellow turns about When he might have won had he stuck it out. Don't give up though the pace seems slow-- You may succeed with another blow.

Often the goal is nearer than It seems to a faint and faltering man; Often the struggler has given up When he might have captured the victor's cup; And he's learned too late when the night came down, How close he was to the golden crown.

Success is failure turned inside out-- The silver tint of the clouds of doubt, And you never can tell how close you are, It may be near when it seems afar; So stick to the fight when you're hardest hit; It's when things seem worst that you mustn't quit.
