Can you guess who this cute little baby is? Take a guess! Several students thought they knew, but were unable to solve the mystery. For example, Leanne Smith, Donna Newsum, and Debbie Thompson all believed it to be Brenda Rucka. Denise Fudge thought it was Leslie Miller. Mr. Rooker also guessed wrong saying it was Mary Young. However, some students were able to solve the mystery. They were: Gayle Lynn Thomas, Cliff Bradshaw, Luanne Brown, Arnold Rodriguez, and Jeff Darden. They all knew it had to be Lulu Yanez, a member of the senior class.

Ag Students Build Deer Blinds

The senior Rice High School Agriculture students have been constructing deer blinds to help perfect their skills in welding and carpentry. The iron pipes holding the stand are one and one quarter inch around. There is three inch angle iron around the bottom of the house, holding it in place. The house is built with three sheets of plywood; it has carpet and a swivel chair inside. The students in this picture constructed the deer stand shown. They are left, Donny Dierschke, right, Thomas Kallina, and holding the deer head in the blind is Russell Wick. The students in the Agriculture department made eight deer stands. The students are now beginning to work on barbecue pits. Rice Raider Photo.

'The American Way' Old Tale Still True

When God made the oyster, He guaranteed him absolute economic and social security. And the eagle went out and built his house on the highest mountain crag, where storms threaten him every day. For his enemies. When hungry, the oyster simply opens up his shell and the food rushes in. But when God made the eagle, He said, "The blue sky is the limit. Go build your own house."
