County Agent's NOTEBOOK

(By Leroy J. Hajdik, County Extension Agent Colorado County)

Ethyl Alcohol, Ethanol, Is Fuel Source

Ethyl alcohol – ethanol – is not the only type of alcohol which can be used for fuel. But it has attracted the greatest interest from farmers because it can be manufactured from a wide range of renewable agricultural resources and even products formerly considered to be waste. Ethanol is also popular because of its suitability as a motor fuel in either straight form or as an extender for gasoline in a 90 percent gasoline-10 percent ethanol ratio.

Ethanol is more commonly known as grain alcohol. The knowledge of this substance goes far back into history, and it is generally agreed that it was one of the earliest organic compounds to be scientifically investigated. It is believed that ethyl alcohol was first distilled commercially in the wine districts of Italy as early as the 11th Century. The first production of anhydrous (water-free) ethanol was made over 184 years ago.

Since the invention of the internal combustion engine, alcohols have been used as fuels at various times. Until recently, however, cheap and plentiful petroleum supplies have worked to discourage their use.

As well as its growing importance as a fuel (and, for many, a beverage), ethanol is an important commercial solvent, and is used in the synthesis of compounds such as acetic acid, ethyl acetate, and tetraethyl lead.

Although there are three major processes used today to manufacture ethanol, only the fermentation of carbohydrates will be discussed here. This is the oldest and most practical method for on-farm applications.

Fermentation is the process in which ethyl alcohol is actually produced; for use as a motor fuel, a further step – distillation – is required to purify the alcohol and remove the water.

Production Steps

The basic steps involved in producing ethanol from grain:

1. The grain is ground with a hammer mill or roller mill. The ground grain is then conveyed to a cooker and mixed with 28 to 30 gallons of water per bushel. A liquefying enzyme is added and the grain is cooked. The cooked grain is allowed to cool, sulphuric acid is added to get an acidity (pH) of 4.0-4.5, and enzymes are added to convert the starch into simple sugars.

2. The mixture is pumped into the fermenter; lime is added to get a pH of 6.5-7.0, yeast is added, and the "mash" is fermented for two to four days. During this fermentation period, the yeast converts most of the sugars into ethyl alcohol and carbon dioxide.

3. After the fermentation process is complete, the liquor, now known as beer and containing 8-12% alcohol, is pumped into the distillation unit at a controlled rate. In the distillation unit, alcohol is boiled off by heat at 173-175 degrees F. and the residue (stillage) and most of the water is discharged.

4. The alcohol is then condensed to a liquid in the condenser unit. This liquid should be 100 proof to 160 proof (50 to 80 percent alcohol). By passing this alcohol back through the distillation unit and condenser, 190 proof (95 percent) alcohol can be obtained. A special distillation process will be required to produce 200 proof (100 percent) alcohol from the 190 proof alcohol. This is probably not feasible or necessary for a small-scale plant. At this point the alcohol should be denatured to make it unfit for beverage use.

5. The solids can be separated from the "watery" stillage and dried by a drier unit. The stillage may go as a waste or may be concentrated by the drier unit. The dried solids are called Distillers Dried Grains and Solubles (DDGS), and should contain about 28 percent protein (in the case of corn). Corn will yield about 17 pounds of DDGS per bushel of grain processed, and grain sorghum about 30 pounds of DDGS per hundredweight of grain processed. The drying step consumes a large amount of energy and requires significant capital investment. In a small plant it will be much better to find a practical outlet for the stillage in wet form, perhaps as a livestock feed supplement or fertilizer.

"You people found deductions and credits I didn't know about. I shoulda come here last year."

Horticulture Short Course at E. B. Apr. 21-24

A Horticulture short course for adults will be held April 21, 22, 23, 24th under the sponsorship of the East Bernard High School Vocational Agriculture Dept., according to Supt. Charles R. Naiser and Vocational Ag. teachers George Krejci and Robert Hlavinka.

John Williamson, Horticulture Specialist with the Vocational Agriculture Division of the Texas Education Agency and the Department of Horticulture at Texas A&M University, will do the instructing in the course. He is headquartered at Texas A&M University.

The short course at the East Bernard High School Agriculture Department is scheduled to begin at 7 p.m. on April 21st in the Ag. Bldg. Other meetings will be held April 22, 23, 24. During the dates the short course is in progress, Williamson will be available to assist enrollees with individual problems and to provide on-the-farm and in-the-home instruction, according to the vocational ag teachers.

Persons interested in attending the short course should write or call the superintendent of schools or the vocational agriculture teachers. An entry fee of $5.00 will be charged. Horticulture Short Course certificates will be presented to enrollees who attend all of the training sessions.

El Campo PCA Leaders To Attend State Meet

El Campo Production Credit Association (PCA) officials will be among those 500 leaders of Texas agriculture meeting in Dallas April 10-12. The occasion is the annual stockholders' meeting of the Federal Intermediate Credit Bank of Texas. Directors from Texas' 30 Production Credit Associations and officials of various other financing institutions will convene in the Loew's Anatole Hotel, Dallas' newest showplace.

Representing El Campo PCA will be Leo J. Allenson of El Campo, S. B. Allen of Edna. Allenson serves as the PCA's official voting delegate.

Soil Conservation District News

District cooperator William Pike of the Altair area is planning to construct a pond.

A new conservation plan has been developed for Dr. Kamel Z. Girgis of Houston who owns and operates a place near Rock Island. Dr. Girgis wants to plant grass and build two new ponds.

Kervy Kahlden Of Weimar Is Conservation Farmer Of Year

Kervy Kahlden of Route 3, Weimar, was named the Colorado Soil and Water Conservation District's Conservation Farmer for 1979, at the 31st annual Columbus Lions Clubs' Conservation Awards Banquet held in Columbus Monday night of this week.

Also honored at the event were the district's essay and poster contest winners. Winners in the essay contest were: Judy Weishuhn of Columbus, first place; John Korenek, Jr., Rice High School, second; Camille Hunt, Columbus elementary, third place; and Craig Peikert of Columbus elementary, fourth.

District winners in the poster contest were; Kelly Salazar of Sheridan, first; Sandra Korenek, St. Mary's second; Steve Antrich, Sheridan, third; and Kevin Genz, St. Mary's, fourth.

In presenting the plaque to Mr. and Mrs. Kahlden, Connie Ilse, Soil Conservationist for the District, gave this summary of Kahlden's conservation activities which won for him the honor of being named Conservation Farmer of the Year:

"Kervy Kahlden is an active, energetic young man who uses his energies to conserve his soil, water, and related resources.

"Since becoming a cooperator with the Colorado Soil and Water Conservation District, in 1960, he has established 125 acres of coastal bermudagrass for pasture, and hayland; he has shaped eight acres of gullies and established them to coastal bermudagrass; and he has constructed three ponds.

"Kervy is a firm believer in using each acre of his land according to its highest productive potential. This is why he takes a soil test in his coastal pastures to determine exactly what his fertilizer needs are for maximum grass production. He cuts his coastal for hay, and then grazes it, being careful to leave enough grass cover to protect the soil from erosion. He is also careful to balance his livestock members with the available forage so as not to overgraze his grass.

"Kervy owns 255 acres of land in Colorado and Fayette counties. He also owns half-interest in 73 acres near Weimar with his brother-in-law, Wilton Leppin. He and his wife presently live on 170 acres which they inherited from Mrs. Kahlden's mother. They bought his parents' 85-acre home place in Fayette County.

"Kervy was born and raised in the Osage Community of Colorado County. He is married to the former Betty Jean Seydler of Weimar. They have one daughter, Jo Lynn, who lives in Katy and is a teacher in the Katy Independent School District.

"Kervy has been active in ways other than farming and making hay. In 1960, he pioneered the first registered herd of Charolais cattle in Colorado County and in 1974, he was president of the Texas Charolais Sale Corporation in San Antonio. He has also served as director of the Gulf Coast Charolais Association for more than 15 years. In 1965, he was instrumental in holding the first Charolais sale in the Marriott Hotel in Houston.

"Kervy has also been busy in other ways. In 1973, he pioneered the concept of baling large round bales of hay in Colorado County. This concept was very slow to get started, but eventually began to catch on and now he is a dealer in round balers, both selling and renting.

"Kervy served as the first President of the Weimar Young Farmers, which he helped organize in the 1960's. He is also a member of the Farm Bureau. He and his wife are members of the Weimar United Church of Christ, where they are both active in church activities. Kervy has served on the church council and as secretary of the council. In 1979, he served as president of the Brotherhood of the church.

"The directors of the Colorado S[illegible] proud to present Mr. and Mrs. Kervy Kahlden as Conservation Farmers for 1979."

The plaque for this honor was presented to Mr. Kahlden by Norman Litzmann, President of the Columbus Evening Lions Club.

Elick Attends Federal Land Bank Stockholder Meet

J. J. Elick of Bellville represented the Federal Land Bank Association of Bellville at the 34th Annual Stockholders meeting of the Federal Land Bank of Texas. The meeting, held at the Houston Oaks Hotel, was attended by members of 64 Federal Land Bank Associations in Texas. There were about 650 persons in attendance.

Thomas H. Benson, president, in his report to the stockholders, stated that there was an increasing demand for new loans in 1979. This was the largest year in the Bank's history with $337 million in loans and it appears the demand for loans will continue.

"In this time of historic highs in interest rates the advantages of our loans are apparent to the farmers and ranchers of Texas. Our borrowers have interest rates much below prime rate," Benson said.

The Federal Land Bank of Texas makes long term loans on farms and ranches and currently has 36,000 loans for approximately $1.6 billion outstanding.

The Federal Land Bank Association of Bellville makes and services loans in this area.

Members of the Board of Directors are: Cecil Beckendorff of Katy, E. F. Borgstedte of Washington, Texas, Isam Brisco of Sheridan, H. P. Donigan of Pattison and J. J. Elick of Bellville.

Others attending this meeting from the Bellville area were H. P. Donigan and Mr. and Mrs. Clifton Mahon.

Use versatile Ordram Selective Herbicide for weed control in rice

Versatile Ordram herbicide gives you consistent weed control in rice. Its dependable performance has been proven under various growing conditions season after season. Besides excellent weed control, Ordram gives you extraordinary application versatility. You can use Ordram as follows:

1. **Pre-plant, pre-flood.** Apply Ordram and incorporate prior to seeding. (Use on water-seeded rice only.)
2. **Post-emergence, pre-flood.** Apply in combination with propanil. (For use on dry-seeded and water-seeded rice.)
3. **Post-emergence at flooding.** Meter Ordram into the irrigation water when establishing the permanent flood. (For dry-seeded rice.)
4. **Post-emergence, post-flood.** Apply to flooded field after the rice is established.

This year, protect your rice crop with Ordram. See your supplier or aerial applicator. Follow label directions carefully. Stauffer Chemical Company, Agricultural Chemical Division, Westport, Connecticut 06880.

Rice FHA Honored Parents At Banquet April 1st

Hear Past State FHA President Speak

The Rice Future Homemakers honored their parents at their annual banquet held Tuesday, April 1st at Rice High School. The activities for the evening emphasized the theme - "Let's Hop Into the Spring Scene". Members, parents and special guests were welcomed by President Kashara Pratt. Theresa Torres gave the invocation.

The buffet banquet dinner consisted of roast beef and gravy, baked ham, seasoned rice, green beans, squash casserole, fresh fruit salad, lime gelatin salad, hot rolls, chocolate and postachio pies, iced tea and coffee. Tables in the Commons were decorated with Easter baskets and egg trees.

After the meal Laura Matura introduced a skit, "The Rejected Bunny". Donna and Rhonda Trcka, Laurie Bubela, Mary Leopold, Guyla Botard, Susan Drlik and Todd Heinen were the performers. Donna Jones used the topic "FHA Hops Right In" to tell of the involvement of members during the year. Rose Till and Kashara Pratt assisted by displaying mementos of the various activities.

Denise Fudge presented the guest speaker, Miss Phyllis Cicero. Miss Cicero is a past State FHA President and was a guest speaker at the 1979 State Meeting. Presently, she is a junior at the University of Texas in Austin where she is a drama major and also a member of the advisory board for Vocational Education. Last summer she studied at the American Academy for Performing Arts in New York City.

Using the theme for the banquet, Miss Cicero spoke on the scenes that tempt teens today. She emphasized the choices that they may make. With humor and enthusiasm she challenged members to think before they leaped, to be the best person [illegible] from parents and others around them. She concluded her talk with the song, "Believe In Me."

Special Awards Presented

Rose Till thanked the speaker and recognized special guests and officers. She also gave special awards to members who had fulfilled Encounter goals. These recipients were Theresa Torres, Jonna Webb, Leslie Harrison, Kim Wunderlich and Sue Purdue. The banquet concluded with the group reciting the creed of the organization. - Reported.

Speaker At FHA Banquet

Some of the Rice High School Senior Chapter FFA Officers are shown above with the speaker at their FHA Parents' Banquet held last week. Left to right are: Donna Jones, Theresa Torres, the speaker Phyllis Cicero, Rose Till, and Kashara Pratt.

Pickle's Bill Would Halt Rising Rates

U.S. Rep. [illegible] Pickle, D-Austin, has introduced a bill to curb escalating freight rates on Rocky Mountain coal shipped to Texas, easing the energy-cost burden on utilities changing to coal-fired power plants.

Aimed at smoothing the switch to coal and reducing America's dependence on foreign oil, HR 6968 shifts the burden of proof for freight rate hikes to the railroad itself when it has a monopoly over service.

Pickle noted that the high cost of shipping domestic coal has forced at least one Texas utility, Central Power and Light Co. of Corpus Christi, to import coal more than 7,300 miles from South Africa to save on shipping costs. That shipment cost 76 cents a ton less than a similar, 1,400 mile shipment would have cost from Colorado.

EGYPT NEWS

[Mrs. B. H. Tolliver]

Mr. and Mrs. John Northington and small daughter Paula spent Sunday with Mrs. Northington's parents, Mr. and Mrs. E. L. McLeroy, in Wharton.

Weekend guests in the F. B. Duncan home included Mr. and Mrs. Wayne Sipel and Michael Hershey of Austin, Mrs. Olive Spitzmiller and daughter and son, Lisa and Robert, of Austin, Mr. and Mrs. Joseph Webster of San Antonio, and Mr. and Mrs. Shirley Helm and Mr. and Mrs. Reagan Helm and little son Matthew of Houston.

Mr. and Mrs. Henry Wobbe and young son John spent Sunday in Boling with their parents and grandparents, Messers and Mesdames W. N. Henson and L. R. Pysson.

Mesdames Augusta O'Quinn and Olivan Storey of Wharton were visitors with Mrs. Ivy Tolliver Tuesday of last week.

Messers and Mesdames Jim, Allen and Dennis Peikert, Milton Johnson of Louise, and Ernest Giesie of Wharton and their families enjoyed a family get-together in the Gordon Peikert home Sunday.

Mr. and Mrs. George H. Northington, III were supper guests of Mr. and Mrs. Clyde Hill in East Bernard Tuesday evening of last week.

Miss Michelle Pauly of Weslaco and Miss Cindy Pauly of Keene were at home for Easter. Kelly Ross of Arlington was a guest in the Pauly home Saturday and Sunday.

Mr. and Mrs. Herbert Dittmar, Jr. and small son Wesley spent Sunday in Cat Springs with his father and mother, Mr. and Mrs. Herbert Dittmar, Sr.

The Rev. Price of Wharton gave the Sunday morning service at the Bonus Baptist Church.

Mrs. Will Meriwether spent the Easter holiday in Tehuacana with her sister, Miss Adelaide Reese.

Sunday dinner guests in the George Krenek, Jr. home included Miss Margaret Zahn, Mr. and Mrs. Marcos Spacek and family, Father Rachunek, Frank Rachunek, Sr. of Hungerford, Miss Elizabeth Krenek of Louise, and Wayne Legler of Wharton.

Mr. and Mrs. Robert Brooks of Minneapolis, Minn. returned home Monday after a week's stay with Mr. and Mrs. R. M. Dobson.

Mr. and Mrs. George H. Northington, III spent the weekend in Boerne with friends.

Dawson Rites

Funeral services for Mrs. Beatrice Dawson, a former Egypt resident, were held Tuesday, April 1st in the Harris Spring A.M.E. Church with the Rev. A. L. Harris officiating. She had celebrated her 100th birthday March 14, 1980 and was making her home with her cousin, Mrs. Ollie Binder of Brenham.

FREE PIZZA

Mrs. Roy A. Van Nort this is a ticket for a free pizza at the Eagle Lake Dairy Delite, where you get the finest foods in town including delicious pizza. Clip this out and present at the Dairy Delite for your free pizza not later than **April 15, 1980.**

WCJC Madrigals To Present Dinner At Pier 59

The Wharton County Junior College Madrigals directed by Tom Phillips will present its second annual "Madrigal Dinner" on Sunday, April 20 from 6-9 p.m. at Pier 59 in Wharton.

Diners will be regally feasted and enjoy a program of music dating from the Renaissance Period with the group performing in authentic costumes of that era.

Members of the Wharton County Junior College Brass Guild will assist in heralding the arrival of the food, drink and the program.

Phillips said, "the price of $12.50 which can be a donation and tax deductible, goes toward the purchase of Maedieval and Renaissance instruments which will be in turn used to augment future programs of this genre as well as the hope of establishing a music society of these instruments - a most worthy cause.

Tickets [illegible] in advance by Madrigal members or you may contact Phillips at WCJC by calling (713) 532-4560, extension 37.
