County Gets \$599.24 Mixed Drinks Tax

State Comptroller Bob Bullock reports that sale of mixed drinks in Texas during the second quarter of 1980 pushed the yearly total during the first six months to nearly a half-billion dollars.

Bullock said mixed drink taxes collected during the April, May and June period amount to \$23.6 million. There were \$22.1 million in taxes collected during the first quarter.

Colorado County had a total revenue of \$3,944.39 from the mixed drinks tax and the county received a check for \$599.24. The City of Columbus received \$411.59 from \$2,743.91 in sales. Austin County received \$326.43. Fayette County \$1,437.99. Lavaca County \$530.37. and Wharton County \$1,141.72. City of Wharton received \$2,797.19 and the City of El Campo \$1,131.28.

**Educating Aliens
Won't Bankrupt
State, Bullock**

State Comptroller Bob Bullock said recently that a federal judge's ruling that Texas public schools must educate the children of illegal aliens would not bankrupt the state.

Bullock said the state pays local school districts about \$2.8 billion annually to supplement the cost of education.

The extra \$40 million it has

been estimated to cover the cost of education for illegal aliens is only 1.4 percent of the state's education budget.

There are about 2.6 million children attending Texas public schools and while nobody knows the exact number of school-aged illegal aliens it is probably not more than 20,000 to 50,000. That's somewhere between 1 to 2 percent, he said.

"Illegal aliens have been paying sales tax, motor vehicle tax and gasoline tax just like Texas residents. Some may treat them as second-class citizens, but they are first-class taxpayers," Bullock said.

Special Lawn Care

Homeowners with limited water for lawn use should water the grass only when it shows signs of stress, suggests a turfgrass specialist with the Texas Agricultural Extension Service. Soak the lawn 3 to 4 inches each watering to encourage stronger plants. Morning waterings have less evaporation and take advantage of the dew.
