Only limited entries are allowed in this contest and those whose work was entered are as follows: Jimmy English, Jerri Clipson, Annette Hotz, Keith Rabel, Bert Tise, Neomi Medina, Janice Waligura, Robert Barrios, Sharla Popp, Jimmy Epps, and Chris Gold.

At the district level Keith Rabel, Annette Hotz, and Bert Tise received Certificates of Merit and Neomi Medina, Sharla Popp, and Bert Tise were selected as Regional Finalists. Out of 3,201 entries, 138 high school Gold Key Finalists were chosen. Neomi Medina and Sharla Popp's art were chosen in this group. Neomi Medina's acrylic painting was chosen as the best acrylic painting entered in this Texas contest. Sharla Popp's watercolor was chosen as the best watercolor painting entered in this contest. This is the third year that Rice has won a "Best Rating" in a particular division. After seven sets of judges judged this exhibit, Sharla Popp's watercolor was selected as one of the five best pieces from the painting and drawing entries (Hallmark Honor Prize Nominees.) Sharla Popp also won the top Watercolor Tools of the Trade Award from The Houston Watercolor Society.

The Gold Key Exhibition will be held at the Glassell School of Art, 5101 Montrose. The exhibition dates are February 14 through March 5.

Student Council Discusses 1980-81 Projects

[By Barbara Prihoda]

On February 16, 1981, the Student Council met in the meeting room at 8:10 a.m. The meeting was called to order by President Mike Rios.

The minutes were read by Janice Waligura and were approved as read. No treasurer's report was available. President Rios told the members about the 1980-81 Student Council Project. At the last meeting Michaelanne Hefner suggested that we put an emblem upon the outside wall of the gym facing west. President Rios said he would meet with his committee at a later date to discuss this project.

Next, Principal Fred Grahmann suggested that we have a "dress up" day sometime this year. The Council will vote on this at the next meeting.

The meeting was adjourned.

"MANUFACTURED HOUSING ...IT MAKES SENSE"

Sophisticated, efficient, assembly line production techniques are not being widely utilized to construct the one commodity that Americans most desire — a single family residence.

With most homes still being built at the homesite over a period of months, the upward spiraling costs of home ownership have placed this dream beyond the financial capabilities of the vast majority of American families. Skyrocketing costs of building materials and construction labor at the homesite are forcing families to other housing alternatives.
