

Changes In State Auto Liability Law

(Continued from page 4, sec. 1)

five years from the conviction date.

For convicted violators to establish proof of financial responsibility, a filing of an "SR-22" form must be made to the Safety Responsibility Bureau in Austin by the violator's insurer as proof of coverage.

The SR-22 form, used as evidence of insurance, is kept on the DPS computer file for five years, but if the violator cancels or allows the coverage to lapse, the violator is notified that his or her license and registration are suspended and that another SR-22 filing will be required.

Since most insurance companies will not insure those requiring an SR-22 filing, coverage may be obtained through either a county mutual insurance company or through the Texas Automobile Insurance Plan (TAIP), an assigned-risk insurance pool, at a higher premium rate than the norm.

Those persons convicted under this new law will pay 20 percent more for insurance, if in the TAIP. Drivers convicted a second time will pay up to 35 percent higher rates.

Out-of-state, government-owned and self-insured vehicles are exempt from these insurance requirements. However, drivers of self-insured vehicles will be asked by DPS officers to produce evidence of self-insurance at

accident scenes and traffic stops.

Worth Mentioning
The insurance industry predicts liability premiums who once were uninsured will now be put into the insurance system.

The new law covers motorcycles as well as every form of motor vehicle operated on a public road or highway.

Rep. Gene Green, D-Houston, the author of HB 197, describes the bill as "experimental - if it doesn't work, we'll do something about it."

The highway patrol does not plan any extraordinary efforts to detect violators, but will ask for insurance proof during routine traffic stops and while investigating accidents. It has been past policy of the DPS to issue warnings rather than citations during the first 90 days after a new law has taken effect.

Christmas Spirit Is One of Love

The spirit of Christmas—it is so many little things. Despite the commercialization of the season, we can still experience the true meaning of Christmas all around us.

It is receiving a greeting from someone thousands of miles away... just a card, but a warm reminder that friendship is one of the most precious gifts of all.

It is young voices raised in song at a convalescent home for the aged... with those wrinkled smiles and moist eyes conveying more than words ever could how appreciative the listeners are.

It is baskets of food and toys for the less fortunate of the community, lovingly put together by those eager to share of their abundance.

It is the newspaper boy's shy delight when an appreciative patron includes a holiday tip for faithful service throughout the past year.

It is being surprised by a neighbor with a batch of her homemade cookies.

It is the hours spent

Choose Children's Gifts With Eye Safety In Mind

When shopping for children's holiday gifts, beware of those that pose threats to eyes, cautions the Texas Society to Prevent Blindness.

More than 5,000 eye injuries were linked to toys last year, and nearly two thirds of these accidents were suffered by children under the age of fifteen. BB guns, darts, and bows and arrows—"toy weapons"—were

looking for that special gift for someone on your list—not an expensive gift, but just what he or she has always wanted.

It is receiving a hand-made sweater or scarf, reflecting the hours of love and time spent in its creation.

It is the face of a child, listening wide-eyed to Mom or Dad reading a favorite Christmas story.

It is the gratitude in a shut-in's eyes, when visitors come to call during the holiday season.

It is the cheeriness "Merry Christmas!" called out by the busy service station attendant or grocery clerk.

It is the spectacular display of lights on homes on the block, placed for neighbors and passers-by to enjoy.

Christmas is sharing... caring... giving. It is, simply, the spirit of love.

A white Christmas presages a prosperous year.

The number of mince pies you taste at Christmas indicates the number of happy months you'll have during the coming year, according to an old English belief.

Portents of The Season

If the sun shines through fruit trees on Christmas Day, it is a sign that the trees will bear much fruit.

Most of these eye injuries happen, reports the Society, when children are not supervised. It's very important that parents show their children how to use their gifts properly. Does the child understand how to use the toy? Does he or she take a "harmless" toy and make it dangerous, for example, by pulling rubber tips off darts? Do older children keep their more complicated toys out of reach of younger brothers or sisters? When dangers are explained, does the child

It's A Fact

There's a fire in your future—a range fire designed to help ranchers raise more livestock per acre. Prescribed burning practices as part of an integrated brush control problem are turning vast areas of Texas rangeland back into production. The Texas Agricultural Extension Service is offering educational programs for range managers, ranchers and agricultural technicians on cor-

rect methods and procedures for using one of nature's oldest rangeland renovation techniques. This is another example of "The Extension Way: People Helping People."

In Australia

If you're not dreaming of a white Christmas, then book your reservation for Australia! Here, people head for the beach or park on this usually hot day, which is followed by Boxing Day.
