Rice FFA Members Win Area Awards

Shown here are four of the six Rice FFA members who received honors at the Area III Future Farmers of America meeting at the Rice High School last Friday. At the left is Roger Rutledge who was named the Area III Star Greenhand; in the photo above are l. to r., David Skimek who will be considered for a Houston Livestock Show and Rodeo scholarship at the State Degree check in Austin June 2-4; Marilyn Mahalitc, who was named the Area III Star Lone Star Farmer; Ricky Miller, who won the Area Crop Production Proficiency award; Deborah Kretschmer, who served on the Courtesy Corps during the Area III banquet; and John Lee Korenek who was named winner of a $6,000 Houston Livestock Show scholarship. John Lee will receive his scholarship at the State FFA Convention to be held July 14-16 in Fort Worth. Roger, David, Marilyn and Ricky will compete for further honors in the State Degree Check in Austin. Coby Shorter III will compete in Public Speaking in the State FFA meeting in Fort Worth in July. Kathy Ishee, not shown, was honored by being elected a 1982-83 Area III vice-president.

Mother Of A. D. Fudge Dies In Pearsall

Funeral services were held Tuesday in Pearsall for the mother of A. D. Fudge. Since the family was out of touch, a more detailed write up will be in next week's Headlight.

Sympathy is extended to relatives in the loss of this loved one.

The Perfect Gift For All Occasions -- A Subscription To The Headlight - 234-2783

Study Club Has Large Turn-Out For President's Luncheon

New Officers Are Introduced; Speaker Discusses Handwriting

The Eagle Lake Study Club held its annual President's Luncheon at the Eagle Lake Community Center on Tuesday, May 4 beginning at 12 noon.

After the meal, the outgoing president, Mrs. A. F. Wiese, introduced the new officers for the coming year. They are: Mrs. Ray Cumberworth, president; Mrs. Bill Harrison, Jr., first vice president; Mrs. George Burke, second vice president; Mrs. Robert Wilcox, secretary; Mrs. Herman Boothe, treasurer; and reporters, Mrs. Dan Thornton and Mrs. Oscar Ballew.

Mrs. Wiese turned the meeting over to David Wintermann who gave a short life history of the speaker for the day, Mike Cullinan of Houston.

He was born in Laredo, Texas and attended Notre Dame. He has been in the History Department at St. John's in Houston for ten years. He also lectures on the Science of Grapho-Analysis, which is a scientific system of analysis through the study of handwriting. The shapes of different letters show definite personality traits.

Grapho-Analysis delves into the mind of the individual, into depths hidden and personal. The direction the letters naturally slant never should be changed was a point of interest by the speaker.

After the speech Mr. Cullinan answered questions from the audience.

A chalk painting done by a noted artist, Rose Byrd, was awarded to Mrs. Oscar Ballew. The door prize was given to Mrs. Brock Ashby.

This luncheon concluded the 1981-82 year for the Eagle Lake Study Club. Meetings will resume in early September. Reported.

Scott Powers' Welcome Baby Girl May 4th

Mr. and Mrs. Scott L. Powers of Eagle Lake proudly announce the birth of their first child, a daughter. The little lady made her arrival in the Eagle Lake Community Hospital at 4:29 p.m. Tuesday, May 4. She has been named Kristen Frances.

Kristen tipped the scales weighing seven pounds and six ounces and measured nineteen inches in length.

Welcoming the newborn into the family are: her paternal grandfather, Paul Powers of Eagle Lake, and maternal grandparents, Charles and Wanda Elder of Houston. Kristen's paternal great grandmother is Mrs. L. O. Clark of Eagle Lake.

Cong. Pickle Discusses Budget Impasse

[By Cong. J. J. Pickle]

There may be a silver lining to the budget impasse if it provides the avenue to address the long-term problems facing social security.

If the Administration proceeds to breach the subject of 1983 social security savings in the budget debate, then Congress should use the opportunity to screw up its courage and make much needed long-term changes in the system. It's another chance for us to take care of our business before closing time.

Recently, Senate Budget Committee Chairman Pete Domenici (R-New Mexico) and President Reagan apparently struck a budget "compromise" which, among other things, "calls for $40 billion in unspecified "savings" from social security over the next three years.

I welcome Senator Domenici's effort to break the stalemate and to reduce the budget deficit, and I agree with the senator's basic goals. But I shall insist on two things.

First, that Senator Domenici make public the specifics of his proposal for social security savings; and second, that we move now to correct the problems the system faces over the long haul. If he'll do this, I'll join him in the good fight.

As you know, for some time I have been calling on my colleagues and the president to act to restore the social security system to fiscal stability.

Though I don't think we should ever rely on deep and immediate benefit cuts to address the system's financial difficulties, I do believe our citizens would accept some changes, including in the cost-of-living adjustments, if we combined these changes with long-term reforms to ensure the ultimate stability of the system.

Free Immunization Clinic At Ugarte Clinic Thursday

The Free Immunization Clinic sponsored by the Texas Department of Health will be held this ' Thurs., May 13th from 1 to 4 p.m. at the Ugarte Clinic in Eagle Lake.

Immunizations for Diphtheria, Tetanus, Pertussis (DTP), Polio, Measles, Mumps and Rubella will be given to infants, pre-schoolers, and school-age children. Tetanus and/or Diphtheria will be given to adults.

2 Gas Wells Completed In The Area

Two completions and two new locations in this county highlight oil and gas activities this week.

One of the completions is the TXO Production Corp. of Corpus Christi's No. 2 Englehart Gas Unit in the Northwest Englehart Field three miles south-southwest of Altair. The well is producing gas at the rate of 373,000 cubic feet per day on an 8-inch choke and has absolute open flow of 1,579,000 cubic feet of gas per day.

The other completion is the No. 4 B. E. Davis "B" by Owl Petroleum Company of Houston, a developmental well in the Colovaca Field 15 miles west of Garwood. The well is in a 179-acre lease in the Asa McClure Survey. It has daily potential of 150,000 cubic feet of gas per day on a 5/64-choke and absolute open flow of 650,000 cubic feet per day. It was drilled to 4,320 feet but production is from perforations from 4,115 to 4,117 feet.

The new locations are: a 2,200-foot developmental well by Kamlok, Inc. of Houston ten miles southwest of Nada in Wharton County. It is in a 183-acre lease in the W.C. R.R. Survey No. 7 A-358 and is designated the No. 4 Duson-Krueger. The other new location is by Delta Drilling Co. of Tyler, a 12,500 foot test in the Frnka Field three miles northeast of Garwood. The well is the No. 2 W. K. Lehrer and is in a 529-acre lease in the Sam Kennelly Survey.

Abandonments have been filed on the B.D.K. Production Co. No. 1 M. D. Shipp ten miles northeast of Speaks; and the No. 1 J. R. McLane Trust by Page Petroleum, Inc. of Houston nine miles northwest of Garwood.

Beta Sigma Phi Celebrates 51st Anniv.; Awards Presented

Alpha Delta Phi and Xi Pi Psi chapters of Beta Sigma Phi celebrated the 51st Anniversary of the founding of the International Sorority at a luncheon held April 24 at The Farris 1912. Founder's Day is the most important tradition celebrated by the world's largest non-academic sorority, which was founded April 30, 1931 by Walter W. Ross.

Glenda Blair led the opening ritual followed by the Beta Sigma Phi grace led by Charlene Rodgers. Jean Wiese welcomed members and guest, Charlotte Coleman. Histories of each chapter were presented by Sue Causey and Cherry Corman. The Founder's Day pledge was read by Lynda Appelt. The International Message was presented by Mary Ann Wood.

Awards Presented

Highlighting the Founder's Day Luncheon was the presentation of awards. Receiving the Girl of the Year Awards were Kay Clipson, President of the Xi Pi Psi, and Jean Wiese, President of Alpha Delta Phi.

Alpha Delta Phi member Jacalyn Ashby received the Program of the Year Award for her program "How to Teach a Baby to Read." Perfect Attendance Awards were presented to Charlene Rodgers, Debbie Christ and Mary Ann Wood of Alpha Delta Phi and Mary Lou Szymanski, Jo Ann Gertson, Jean Williams, Diana Brunner (10 years), Ernie Somerlatte (12 years), and Lynda Appelt (14 years) of Xi Pi Psi. Sweetheart awards went to Kay Clipson and Mary Ann Wood.

The president of each chapter presented gifts to her executive board. Each president was presented a gavel pin guard and a gift of appreciation from her chapter. Pins were presented to past sweethearts Jo Ann Gertson, Mary Lou Szymanski, Pat Cook, Brenda Corman and Lynda Appelt by the Xi Pi Psi chapter.

The Founder's Day program closed with the closing ritual and mizpah. Reporter.

Graduate Renee Hunt Honored At Luncheon

Mrs. Lee Roy Lundquist of Garwood honored Miss Renee Hunt, Rice High School Senior, with a luncheon Saturday, May 1, at 11:30 a.m. in her home.

A large blue "R" was placed on the front door. The guests were served tall glasses of sparkling cider when they arrived.

A menu of Chicken Crepes Divan, spiced peaches, assorted sweet muffins, Heavenly tea, and hot fudge sundaes was served from tables covered with floor length ecru and pink linen cloths and overlaid with ecru lace coverlets. Arrangements of polished grape ivy entwined with pink and green striped taffeta ribbon in footed crystal and brass containers centered each table. Tall crystal candle sticks holding green tapers completed the setting.

Guests included Misses Sharla Popp, Paula Rohwer, Kitty Thomas, Denise Hyek, Ierma Yanez, Carmen Schneider, Michaelanne Hefner, Jerri Clipson, and the honoree's mother, Mrs. Dale Hunt.

School Students Need S.S. Card For Summer Work

Many young people in the Brenham area are planning to take their first job after school is out, and one of the most important things they have to do is to get a Social Security number, Bruce Grady, Social Security branch manager in the Brenham office said recently.

Most employers will not hire a person unless he or she has a Social Security number. Therefore, Grady said, it is important to have a number before applying for a job.

A person must submit documentary evidence of his or her age, identity, and citizenship or immigration status. A person 18 or older must apply in person.

Be sure to allow plenty of time to get a Social Security number. It may take several weeks, Grady said. A person who has trouble locating proper evidence should contact the Brenham Social Security Office. The people there will suggest other documents that can be used.

The Brenham Social Security Office is located at 702 West Alamo and the telephone number is 836-4581. People outside the Brenham exchange should call 1-800-392-1603.

Energy-Efficient Appliances Can Pay Off

Buy an energy-efficient appliance today and you may save enough "energy dollars" to pay for half of the next model you buy. Those yellow-and-black energy labels are your guide to success. Use these labels to compare "grand total cost" of several appliances, and you will know which one can save enough money to pay for half of the next model you'll buy.

It's easy to figure out which appliance will be the big "pay off" for you. Look at the BIG number on the yellow-and-black energy label. It tells you how many energy dollars you'll spend to run the appliance every year. Just multiply that BIG number by the number of years your appliance will "live" – remember, appliances have "life expectancies", too. (Refrigerators "live" about 15 years, if purchased new, while new clothes washers and dishwashers "live" about 11 years.) Then add the purchase price – and you have it. Your answer is the "grand total cost" estimate. Do this for each appliance you're considering, compare their "grand total" cost and you'll know which can save enough money to pay for half of the next model you may need.

Simple Sample

Here's a "simple sample" to follow: A refrigerator you like has a black-and-yellow energy label with a BIG number $91. That means it costs $91 to operate all year – at average electric rates. Look at the yellow-and-black label a bit closer – it also tells you that other similar models will cost from $68 to $132 per year to operate. So your model is an "in-betweener" – it has a medium range of energy efficiency. You'll probably notice it has a medium-range price tag on it, too – not really "bargain cheap" and not "super expensive." Since it does save more energy than some cheaper-to-purchase models, you wonder if you should go ahead and buy it – is it worth the price?

Compare Local Costs

Of course, if you "plum in" local utility rates to your figuring, you may find the savings are even greater. Remember, the BIG number on each appliance is an estimated cost based on "average" utility rates – about five cents per kilowatt hour. Look at the yellow-and-black label a bit closer. Down below the BIG number is a chart with other year-long cost estimates based on different utility rates – from two cents per kilowatt hour to 12 cents per kilowatt hour. The money you saved can almost completely pay for your next refrigerator.

You can set up a trust that will generate tax-free income.

County To Pay Part Of Criminal Investigator's Pay

Colorado County Commissioners' Court, in session Monday, authorized the expenditure of $1,326.92 from the sheriff's department budget for 1982 to assist in the costs of hiring a criminal investigator for the 25th judicial district.

Bill Hyman, who has been working with District Attorney Houston Munson in investigation of criminal cases, and Sheriff Jim Broussard met with the court to discuss the matter.

Hyman's services had been partially financed through funds from the State Criminal Justice Dept. but the funds were reduced and earlier this year stopped; hence District Attorney Munson asked the four counties in the district to assist in paying for Hyman's salary.

The county's quota of the amount needed amounted to 18% of the total cost or $1,326.92. On suggestion of Commissioner Bill Stiles, the court voted to approve the allocation from the sheriff's department budget for 1982 since the sheriff is expected to have some funds available due to reduced and/or altered personnel working in the department.

It was pointed out that the criminal investigator would be available to make investigations which might need to be made after the cases are turned over to the district attorney's office by the sheriff's department for presentation to the grand jury or to be brought to trial.

Sheriff Broussard pointed out that this would free some of his deputies from making these additional investigations so that they could take care of other criminal matters that are brought to the attention of the sheriff's office.

Suffered Broken Bone

Mrs. W. ~J. (Louise) Brunner had the misfortune to fall while in Austin weekend before last. She suffered a broken bone in her left hand, also badly bruising her right hand as she landed on her right shoulder.

She was in San Antonio Friday through Sunday to attend Pink and Blue Showers for her daughter, Mrs. David Barr, one of the showers was in Austin and the other in San Antonio.

Mrs. William Brunner, Shanna and Jason were accompanied to San Antonio by W. J. Brunner for the social and they all returned home together.

A speedy recovery is wished for Louise.

While in Austin Mrs. Brunner visited Miss Florine Oltman who is still (10 weeks) confined to Seton Hospital. Friends also wish her a complete recovery and hope she will soon be able to return to her home.

Holiday Guests

Mother's Day guests of Mr. and Mrs. Howard Johnson were their children and grandchildren, Mr. and Mrs. Bruce Johnson of Galena Park and Mr. and Mrs. Gayle Thomas and Mrs. Judy Jarvis and Kelley of Eagle Lake and Miss Gaye Lynn Thomas of Sam Houston State University in Huntsville.

Church Of God BBQ, Country Store This Saturday

The Garwood Church of God Women's Missionary Society will hold its annual Barbecue and Country Store Bargain Day this Saturday, May 15th at the Garwood Church of God dining hall center, located between Altair and Garwood, beginning at 10 a.m. until 4 p.m.

Barbecue chicken and beef with all the trimmings will be served beginning at 12 noon for $3.50 per plate. Canned goods, clothing, miscellaneous items and articles, which members say will be reasonably priced, will be available in the country store beginning at 10 a.m. Refreshments will also be sold.

For further particulars contact Mrs. Bernice Ward, president, at 758-3415. "Your support will be appreciated," said the Rev. Elbert Williams, pastor.

Ric Weavers Are Parents Of Son Born May 7

Mr. and Mrs. Ric Weaver are the pleased parents of a son born Friday, May 7 at 6:48 p.m. in the Gulf Coast Medical Center in Wharton. The young man weighed six pounds and eleven ounces at birth and measured nineteen inches long. His name is Boyd Dean.

Grandparents are Mr. and Mrs. R. W. Weaver of Odessa, Roy Dean Van Nort of Eagle Lake and Mrs. Gerri Anderson of Houston. Great grandparents are Mr. and Mrs. Roy A. Van Nort of Eagle Lake. A great great grandmother is Mrs. Lottie Q. Woodruff of Brenham.

Burglars Get $7000 In Rings At Windham's

Columbus police are investigating the burglary of Windham's Jewelry in Columbus last weekend when an estimated $7,000 in jewelry was stolen.

According to Columbus Chief of Police Tom Wine, the burglar or burglars used a bar of some kind to break out a window in front of the jewelry store and then reached through the hole and took whatever items they could reach.

Among the items reported as missing was a tray of rings valued at an estimated $7,000.

Investigation of the theft continues.

52 Members Of Rice H.S. Class of '72 Reunite Last Sat.

Fifty-two members of the Rice High School graduating class of 1972 gathered last Saturday at Ethel Konvicka's Circle K Ranch near Eagle Lake, to celebrate their 10 year reunion.

The spacious country home and grounds proved to be an ideal location for the event, and that along with ideal weather conditions helped make the event a big success.

The special occasion began at 3:00 p.m. on Saturday with a two-hour family session with 47 children of classmates, ranging in age from five weeks on up, participating. After that the rest of the activities were for the adults with about 100 attending, which included spouses and several special guests.

Following the taking of a group photograph session at 6:30, a delicious barbecue beef and sausage dinner was catered by Staff Catering of El Campo. A brief class meeting followed at which time several door prizes were awarded.

The remainder of the evening was left to socializing, dancing and remembering the good old days.

Several special guests attended the event Saturday including Fred Grahmann, principal at Rice High School; Linda Shaw Swanson, former Rice faculty member, and Ethel Konvicka, who provided her beautiful country home for the special event.

During the event each class member received a name tag with his or her individual graduation picture taped on it. Each classmate also received a directory which included all the names and addresses of the Class of 1972 and also a composite picture of the class.

Also during the evening a brief moment of silence was observed to remember three classmates, Robert Criswell, Gigi Kallina and Lauralea Turner, who were victims of an auto accident the night before graduation in May of 1972.

Outboard Motor Stolen At Bennie Blair Home

Bennie F. Blair, who resides on Farm to Market Road 102 south of Eagle Lake, reported to the Sheriff's Department on Tuesday of last week that an 18 horsepower Evinrude all-electric motor was stolen from a boat on a trailer under a shed at his home sometime Tuesday night while Blair attended a Little League game. He said the theft occurred from 8 to 10 p.m. and added that whoever took the motor apparently knew what they were doing and had knowledge of this type of equipment, since all wires and hoses on the motor were disconnected without any damage. The boat, motor and trailer were not visible from the roadway.

Officers from the Sheriff's Department are continuing the investigation.

You can deposit money in a financial plan that will save your estate some taxes.

Democrats, Republicans To Hold County Meetings Sat.

Democrats and Republicans will hold county conventions this Saturday, May 15th to elect delegates to the respective state conventions and to adopt resolutions to send on to the state meetings.

The Democrats will gather for the county convention, with Robert Schiurring of Garwood, County Democratic chairman presiding, this Saturday at 2 p.m. in the directors' room of the Colorado County Federal Savings and Loan Association building in Columbus. Delegates will be coming to the convention from the eighteen voting precincts of this county.

The Republicans will gather for their county convention in the council room of the Municipal Building in Eagle Lake at 2:30 p.m. this Saturday. Mark Anderson of Eagle Lake, County Republican Chairman, will preside at this convention. Delegates will also be going to the county convention from the respective voting precincts.

INSECT DANGERS

Spring is the time people and insects often get on a collision course. Insects cause a number of injuries to people each year when outdoor activities increase, notes an entomologist with the Texas Agricultural Extension Service, Texas A&M University System. The greatest peril from insect-people encounters is allergic reactions, which can range from itching and skin inflammation to abdominal pain and nausea, breathing difficulty and shock. Remain still if a stinging insect is near. If one attacks, brush it off but don't slap it to prevent a sting.

Use Of Irrigation Water Rising In Importance

[By Soil Conservation Service]

In these days of fuel shortages and expensive utility cost, proper water management in rice production is important.

Pumping costs over the last few years have sky-rocketed to the point that each gallon of rice irrigation water has to be utilized to the fullest extent.

Even though many of the rice farmers in Colorado County use canal irrigation water from wells on their farms, these wells are operated by using internal combustion engines, or electric irrigation motors on them.

Irrigation water management in rice begins by doing some cultural practices on the land. The land has to be smoothed and leveled for even distribution of the irrigation water between levees. This is achieved by using large tractors, and equipment to do the leveling and smoothing job.

After the land has been smoothed and leveled, the levees are run on level contours so that the irrigation water will be evenly distributed in each cut. Moisture requirements during panicle development on the rice plant are very critical.

Because of the oxygen needs of the young plants, the soil is not flooded during the early stages of growth. As the rice plant puts down tillers, and later reaches panicle differentiation, water should be added as a flood to control grass and weeds.

The depth of this flood water can vary from two to six inches with the flood being maintained to insure a high yield during harvest.

Irrigation water management plays an important role in rice production. Proper timing of the water application and the depth of water applied are key factors in the yield of rice at harvest time, and in control of weeds and grass.

Soil Conservation District News

Irrigation equipment has been installed on Leopold Bros. and Engstrom Bros. places near Nada and Garwood to help improve water use efficiency in rice farming.

Conservation assistance was provided to Elton W. Litzmann on his place near Alleyton. Mr. Litzmann is planning to plant some Alicia bermudagrass this year and some coastal bermudagrass next year.

District cooperator Alan Sanderson has completed shaping 2.4 acres of gullied areas to control erosion on his farm at Alleyton.

District cooperator Casper Einkauf of the Sheridan area is constructing a pond.

The 33rd Annual Conservation Awards banquet was held on April 19th in the Columbus Elementary School cafeteria. It was sponsored jointly by the Colorado Soil and Water Conservation District and the Columbus Noon and Evening Lions Clubs. One hundred twenty five people attended the banquet.

The regular monthly meeting of the Colorado SWCD was held on April 20. Directors attending were: Herbert Engstrom, Melvin Albright, Theo. Schultz, and Royal Hennecke.

Conservation assistance was provided to Keith Buringhausek of Bernardo recently. Keith plans to construct some ponds and to do several other conservation measures.

Conservation assistance was recently provided to Dr. Charles Klanke of Houston, who recently purchased 425 acres in the Ramsey community. Dr. Klanke plans to build several ponds and to establish some permanent grass.

2/ Sheltered air temperatures

Warm, humid weather will persist over the Coastal Plains through Thursday. An upper air disturbance will trigger scattered, thundershowers over the region through Tuesday, mainly in the Coastal Bend and western Rice Belt Tuesday afternoon and in the eastern Rice Belt Tuesday night. A few showers are expected Wednesday, possibly increasing Thursday as a weak front approaches. Showers should diminish Friday followed by mostly clear, mild weather Saturday.

In the Rice Belt...damp fields will dry slowly the next few days, and a chance of showers into Friday threatens to extend field work delays. Limited sunshine the next few days will inhibit crop growth. Winds will likely be too strong for effective chemical spraying through Wednesday.
