Dove, teal seasons set

The Texas Parks and Wildlife Commission has approved 1982-83 hunting season dates and bag limits for doves, teal ducks and other "early season" game birds.

However, the mourning dove hunting season dates may be altered later if the U.S. Fish and Wildlife Service (USFWS) authorizes a 70-day rather than a 60-day season, officials said.

The North Zone mourning dove season will be Sept. 1 - Oct. 30, 1982. If the USFWS authorizes the extra days, a 10-day winter season would be set for Jan. 1-10, 1983.

In the South Zone, which includes this area, the adopted split season dates for mourning doves are Sept. 20 - Nov. 2, 1982 and Jan. 1-16, 1983.

In South Zone counties which have a four-day white-winged dove hunting season, the fall season for mourning doves would end on Oct. 29, 1982. If the extra days are authorized in the federal framework, the 10 days will be tacked onto the end of the regular fall season, establishing a first segment closing date of Nov. 12, 1982.

Shooting hours in both zones will be one-half hour before sunrise to sunset, except in counties having days with concurrent white-winged and mourning dove hunting. Shooting hours will be noon to sunset in those counties during the white-winged season.

The white-winged dove season authorized only for sixteen counties in the Valley will be Sept. 4 and 11-12, 1982.

Bag limit for mourning doves will be 12 per day, possession limit 24. The whitewing daily bag limit is 10, possession limit 20.

The 1982 season for all teal duck species was set for Sept. 11-19, 1982. Bag limit is four per day in the aggregate, possession limit eight in the aggregate.

Other game bird seasons and bag limits established were: gallinules, Sept. 1 - Nov. 9, 1982, bag limit 15 per day, possession 30; rails, Sept. 1 - Nov. 9, 1982, large rails (king and clapper) bag limit 15 in the aggregate per day, possession limit 30 in the aggregate; small rails (sora and Virginia) bag limit 25 in the aggregate per day, possession limit 25 in the aggregate. Shooting hours for gallinules and rails are one-half hour before sunrise to sunset.

There is no open season on white-front doves, red-billed pigeons and band-tailed pigeons.

As was the case last year, hunters in some counties are required to leave one full-feathered wing attached to the carcass of each dove taken, until the bird reaches the hunter's abode or a commercial preservation facility. This requirement applies to the following counties and all counties lying to the south and west of the line formed by those counties. They are Culbertson, Jeff Davis, Brewster, Terrell, Val Verde, Kinney, Uvalde, Medina, Bexar, Wilson, Karnes, Bee, San Antonio and Nueces.
