Practice safety during grain harvest

With grain harvesting and storage operations about to get into full swing throughout the state, safety precautions are essential to an accident-free harvest season, says a safety engineer with the Texas Agricultural Extension Service, Texas A&M University System.

He suggests that all operators of harvest equipment and storage facilities review carefully and follow recommended operating, maintenance and safety recommendations in instruction manuals. In addition, keep equipment in good working order and make sure all workers are properly trained and use appropriate personal protective equipment.

Mixed drink tax rebates sent out

Columbus will receive \$1,450, out of \$1,842 the county is due as its share of the state's 10 percent mixed drink tax rebate, according to state comptroller Bob Bullock.

Bullock said collection of the state's mixed drink tax during the second quarter of 1982 was up 18 percent over the same period last year. The state received \$35.9 million in taxes during the second three months of this year.

He said his office is sending checks totaling \$10.4 million to 215 counties and 407 cities as their 15 percent share. The state's general revenue fund will receive the balance, \$25.5 million, of the tax cash collected.

Texas cities and counties received a 15 percent rebate of the tax collected on mixed drinks sold within their boundaries, under the law that legalized the sale of mixed drinks in the state.

The mixed drink tax is collected by the Alcoholic Beverage Commission, and the city-county rebates are sent out quarterly by the comptroller's office.

Bullock said the mixed drink tax has brought in \$70.5 million during the first and second quarters of 1982.

Heritage House gets patio

A new patio has been added to Heritage House Nursing Home, for the enjoyment of residents, their families, and staff.

The patio is surrounded by flowering plants and shrubbery, donated by Heritage House Auxiliary. The patio is presently unfurnished, but Mae Price, social activities director of the nursing home, plans to solve this inconvenience by

staging a fundraising event to give away an electric ice cream freezer.

The fundraiser will be held August 12, and will be open to the public. Tickets may be purchased at Heritage House, weekdays from eight to five p.m. Tickets will be available for 50 cents each, three for \$1. Ticket holders need not be present to win. Public support is encouraged and appreciated.

Education—Our Money's Worth?

In my travels over Texas, it has become clear that Texas rate crime, the economy, and the education of their children among their principal concerns.

This week I would like to discuss education. As the father of six children, this has long been one of my principal concerns also.

We currently spend over half our tax revenue on education, and many people raise the question to me: "Are we getting our money's worth?" The questions put to me indicate some think we are spending too much; others, not enough.

I too am concerned about the amount of money we spend on education, but I am more concerned about the quality of that education. I believe the quality of education our children receive can be improved by making some fundamental changes in the way we pay and treat our teachers.

I believe in merit pay for teachers. Frankly, I think
