Joe Wyatt Working Hard

Concerned about agriculture

I'm a farmer. And I want a congressman who really understands how tough things are these days for food-producers. I've talked to Joe Wyatt personally, looked him right in the eye. He's so concerned about what's happening to us farmers that he's asked for a seat on the House Agriculture Committee. And he has some ideas about ways to help improve exports. For one thing, he won't vote against Food for Peace the way Bill Patman did. Joe Wyatt will work for farmers, and that's what we need from our congressman.

Utility bills reduced

I don't even like to look at my utility bill when it arrives because I know that whatever it is, it's expensive. But if it wasn't for Joe Wyatt, my utility bills would be even higher. Joe Wyatt wrote the law that took the sales tax off our utility bills, and that puts money in my pocket every month. Joe Wyatt cares about people, and that's why I'm voting for him.

Tax cut for little people

Joe Wyatt wrote the law that took the sales tax off Girl Scout cookies, bats, gloves, and baseballs for Little Leaguers, baked goods sold at PTA fund-raisers, and things like that. And that was the law that gave the same tax-exempt status to G.I. Forum that other veterans groups enjoy. That tells me that Joe Wyatt cares about making things better for the average person. And guess who voted against Joe Wyatt's idea? Bill Patman. Can you believe it? What can you say about a guy who votes against a little help for the Girl Scouts and Little League?

Ronald Reagan

October 6, 1982

Dear Joe:
I am very pleased to hear of your campaign for Congress in the 14th Congressional District of Texas. We are certainly eager to have you represent the good people of Texas from your area.

I need your help in Congress. Your devotion and service to the people of Texas have already been demonstrated. While in the Texas legislature, you served in a crucial role as Chairman of the Ways and Means Committee. Your previous service in Congress as a member of the Armed Services Committee uniquely qualifies you to help me with our critical programs.

I know you share my concerns for the success of our efforts. We must get the economy back on its feet. And we must continue to work for programs to strengthen our national security. Your support will be very valuable to my Administration in each of these areas, and in many others.

You have my support and best wishes for a successful campaign. I look forward to working with you to continue the restoration of America's greatness.

Sincerely,
Ronald Reagan

Dear Friend,

We elected Ronald Reagan to the presidency because we wanted to make America great again. Our economy was on the brink of disaster after 40 years of reckless spending by one liberal Congress after another.

But when Congress voted on a resolution for a balanced budget within four years, Bill Patman voted against it. When President Reagan proposed the first series of spending cuts, Mr. Patman voted "No." He voted against President Reagan's second set of spending cuts, against other conservative proposals for spending cuts, and - for good measure - he voted against President Reagan's tax cuts, too.

I'm in this race because most people in this part of Texas tell me they feel they're being misrepresented by the way Bill Patman votes in Congress. Would you vote for free food stamps? Neither would I. But Bill Patman did. Who's he really representing? I was born and grew up in this part of Texas. People around here are independent, conservative, and blessed with common sense. With your support, I'll proudly take those values to Congress. I'll work for spending cuts and a balanced budget. I'll work for a cost-effective national defense. Together, we'll make America great again.

Sincerely,

Joe Wyatt
