Raider Review

Students register for 1983-84 year

By Julia Rosprim

On Tuesday, Wednesday and Thursday of last week, the underclassmen of Rice High School registered for their classes for the 1983-84 school year. Assistng the students with their choices were the counselors, Bill Carpenter and Guy Beane.

The juniors met with Mr. Carpenter on Tuesday during their history classes. Since the juniors were familiar with the procedure for selecting classes, the counselors "turned them loose" to let them pick their own classes. He did remind them that Government was a required course for seniors. He also reminded them that twenty credits were required for graduation and to make sure that they would take the courses to get these credits.

The sophomores met on Wednesday during their English classes. The selection procedure was explained to them. Required courses for the junior year are English III and American History. Many other selections were offered and each student could take whatever courses he or she wanted or needed.

The freshmen met on Thursday during their English classes. The selection procedure was also explained to them. Required courses for the sophomore year are English II, Algebra 3-4 (or any lower math course), biology and either Health or World History.

Electives for all classifications including typing, vocational agriculture, homemaking, band, athletics, and physical education. For juniors and seniors, the electives list includes business courses, Spanish, vocational courses, and computer courses. In regard to all classifications, there are two types of courses, premium and regular. Premium courses are designed for college-bound students and receive more grade points. This gives the student a higher grade point average, which is used to determine the rankings when the students graduate. A regular class is a bit easier course and gets a lesser grade point.

Parents are encouraged to help their children make their curriculum choices. The correct choices could help the student enter college or get a good job after graduation. If there are any questions, feel free to call the school at 234-3535 and ask for one of the counselors.

Julius Cano speaks at Business Club meeting January 19.-RR Photo

Cano speaks to business club

By Leslie Harrison

On January 19, 1983, the Business Club held their second meeting at 1:10 p.m. in the meeting room. The meeting was called to order by President Ronny Cook, minutes were read by the recording secretary and the treasury report given came to a balance of $1108.60.

Mr. Wendel then introduced the guest speaker — Julius Cano of Victoria. Mr. Cano started off by saying that all through life, people will tell you — "You can do certain things." However, blocking out that phrase, he has achieved his goal and is where he wants to be today. Mr. Cano started out in dental technology school, went into coaching, and progressed now to a representative for Region III Education Center dealing with computers. He started out not knowing what he wanted to do, but "through luck and a lot of hard work, his life has been successful. He urged members to spend time with school counselors to figure out which direction their lives were taking. "Be prepared when opportunities knock."

After Mr. Cano's presentation, President Ronny reminded the third meeting committee to plan a business-related skit for the main program. Members volunteered to bring punch and cookies.

Banquet committees are to turn in a finalized report by March 1. The date of the banquet is set for April 12 at 7 p.m. Each member that brings a guest must pay for their plate. Everyone was encouraged to invite their parents.

Mr. Wendel then took a moment to urge the club to be active and to strive for a goal as a family unit.

At the end of the meeting, students had a chance to run a small program on a newly purchased lineprinter.

Freedom Jam Show rocks RHS

By Becky Benge

On January 19, the Freedom Jam Show put, on a successful performance at Rice High School as part of their North American Tour. The energetic band members provided entertainment with a purpose during their musical/comedy format.

The five young men stressed the patriotism of America from 1776 to the rights and freedoms that we have today. The personal involvement with the crowd when "Truly" was sang by Mary Leopold and one of Elvis' hits was sang by Rhonda Treka added a special effect as did the message to the students on values.

The group gave a super performance and started the morning off with a bang!!

Students attend speech tournament

By Cathy Lanyon

On Saturday, January 15, several students attended a speech and debate tournament held at the Columbus High School. The students that represented Rice were: Kevin Brisco, Coby Shorter, Jose Ugarte, Sonia, Vickie and Freddie Hernandez, Temple Thomas, Rachelle Hunt, Valerie Benge, Brandon Cope, Debbie Kretschmer, Brian Thomson, Leslie Heard, Sharri Webb, Lori Hoffman, and Va'Ronica Woods.

There were eight different categories in which they could participate. In extemporaneous speaking, Freddie, Jose, Temple, and Coby participate. Coby placed third in the finals. In poetry, Rachelle and Valerie placed as far as the semis and Vickie went on to the finals. Brandon, Kevin, and Debbie signed up for solo improv, but did not place. Both Brian and Leslie reached the semis in prose. Vickie again reached the finals, this time in storytelling.

Rice High School is proud to have supported these students. Special thanks is extended to the speech and debate teacher, Mrs. Allen. We hope to see some more outstanding accomplishments from these and other students in the upcoming speech and debate tournaments.

Tennis team meets

By Stacey Holden

On January 17, 1983, there was an organizational meeting for tennis held at 8:10 a.m. in the Rice High School meeting room. There were quite a few students who showed up to be a part of the Rice High School tennis team.

Coach White will be the coach for tennis. He told the students that they would have to practice on their own for a while since he is also the coach for the girls' JV basketball team. He stressed that the freshmen probably would not play or practice that much this year, but to be ready just in case they were able to play. He then started that there were several matches that were already set up.

Everyone is looking forward to a very exciting and promising tennis season.

Rosharon Foster — Sheryl Hemphill

Check out this awesome couple

By Patricia Fields

This week the Raider Review proudly introduces two players of the Girls' varsity basketball team, Meet Sheryl Hemphill and Rosharon Foster.

Sheryl, a junior, struts about in the number 40. She is a first year member and carefully does her job with the forward and post positions. Coach Johnson thinks that Sheryl does an outstanding job of coming off the bench and giving the team the points they need. She feels that Sheryl has a good chance of gaining a starting position if the good work keeps up. Sheryl is the daughter of Mrs. Jennie B. Hemphill of Eagle Lake.

Rosharon, a junior, gets chased around in the number 50. She is a first year member and holds the job of post. Being a first year member, Coach Johnson stated that Ro (short for Rosharon) has helped the team out considerably. She says that Ro is very good on the defensive rebounding boards. Rosharon is the daughter of Mr. and Mrs. Arthur Foster of Eagle Lake.

The next game will be out at the Raider gym. Their opponents will be the La Grange Leopardettes. They hold an overall record of 11 wins and six losses, with a district record of 6-1. These girls deserve a round of applause.

Who's Zat?

By Debbie Wilson

Can you guess who this is? Can you guess if this is a girl or boy which was the main question when this picture was being passed around.

Those who thought it was Pecos Coble were Ronny Cook and Andy Gertson. Those who thought it was Robert Dierschke were Stephen Mahalitc and Joe Mike Young. Robert Labay thought it was Paul Kucherka, Leslie Harrison thought it was Brian Wiese, and Laurie Bubela thought it was Valaria Benge. Those who guessed this picture right were Robert Dierschke, Richard Klekar, Roxanne Ripper and Gary Kocurek.

If you have not figured out if this is a girl or boy, it's definitely a girl, and it is none other than Leslie Heard, a freshman at Rice High School.

Jets Club meets

By Roxanne Ripper

On Wednesday, January 19, the Jets Club met after school in the meeting room at 3:20 p.m.

Coach Gindratt made an announcement that Jets Club pictures would be taken Tuesday morning at 8:10. Then, he introduced the officers: Coby Shorter, president; Julia Rosprim, vice president; Roxanne Ripper, secretary; and Lisa Corman, treasurer. The other main point was that the club would not be able to sponsor any money making projects that would benefit the club. A project would be sponsored if the money was sent to a charitable organization.

Gindratt then said that the club would be able to take one trip this school year. He asked for suggestions and if we had any, please tell an officer or either a sponsor about it by the middle of February. Ms. Balusek, also a sponsor, said that we have an opportunity to go to a Making Science Conference at Texas A&M on March 6. Ms. Balusek then suggested that we could raise money and put it toward a Jets scholarship. To receive this scholarship the club member would be entering some field of science, engineering or computer science.

The meeting was then adjourned.

School Menu

Thursday, January 27: Fried Chicken, Rice/Gravy, Buttered Spinach, Apple Wedges, Hot Rolls.

Friday, January 28: Frito Pie, Baked Beans, Celery Sticks, Pineapple Tid Bits, Lunchroom Bread.

Save money with a heat pump for heating *and* air conditioning

You can lower your utility bills substantially by using an electric heat pump to provide the heating and cooling that account for as much as 65 to 70 percent of the electricity consumed in your home. It's a super-efficient device that should be included in any new house you build or buy. Or maybe you'll want to consider adding a heat pump to your present home to increase the efficiency of your heating/cooling system.

Although its name is somewhat misleading, the heat pump actually is designed to keep you comfortable all year long. It warms your house during the winter and air conditions it during the summer — and does both more efficiently than any other combination unit now available.

What makes it so efficient? the heat pump simply moves heat — a less expensive process than making heat, as gas and other conventional systems must do.

In cold weather, the heat pump absorbs the heat always present in outside air and transfers it inside. In hot weather, it removes heat from the interior to air condition and dehumidify your home.

The heat pump is an especially good choice for South Texas because it performs most economically in places with a relatively mild climate. In the area served by Central Power and Light Company, a properly installed heat pump can produce at least 2½ units of heat for every unit of energy needed to run it.

If you'd like more details, just inquire at your CPL office. We'll be happy to give you information about heat pumps and other devices that help use energy wisely.
