Isam Briscoe, Jr. attends Land Bank meeting

Isam Briscoe, Jr. of Sheridan has just returned from Houston where he represented the Federal Land Bank Association of Bellville at the 38th annual stockholders' meeting.

The March 25 meeting was attended by approximately 450 members of the 55 Federal Land Bank Associations in Texas.

The Federal Land Bank of Texas, the state's largest, long-term farm mortgage lender, released its 1982 annual report during the meeting, showing \$2.4 billion in outstanding loans, an 11.3 percent increase over 1981.

According to land bank president Thomas H. Benson, while low commodity prices, high interest rates and rising production costs combined to create a year of adversity for farmers served by the Texas Land Bank, the rate of delinquencies and foreclosures remained low due to the bank's policy of working with member borrowers.

Members of the board of directors are Isam Briscoe, Jr. of Sheridan, Cecil Beckendorf of Katy, E. F. Borgstedt of Washington, H. P. Donigan of Pattison and J. J. Ellick of Bellville.

Three women from the First National Bank of Eagle Lake, Barbara Miller, vice president-cashier; Barbara Hachorn, auditor; and Monica Buhela, data processing officer, attended the Mid-Coastal Group National Association of Bank Women meeting on March 29 in Bay City.

Bobbie Laughlin, assistant vice president of the Bay City Bank and Trust Company, host bank, was arrangements chairman. Leeta Arbuckle, chairman of the Mid-Coastal Group and cashier of the Bay City Bank and Trust Company, welcomed the approximately 50 women officers and their guests who had assembled at the Holiday Inn in Bay City to participate in one of two modules being presented.

The modules were entitled "Enhancing Your Self-Image" and "Developing Employees - A Look At Coaching." After completion of the modules, the group enjoyed a social and dinner in the Matagorda Room of the Holiday Inn.

Homemakers' Reflections

Rashes can be painful and annoying. Signs and symptoms of rashes include redness, blotchy skin, severe itching, scaliness, and dryness of the skin.

Ninety percent of all rashes are heat-related. Sun and hot temperature make people more susceptible to rashes.

Rashes can also be allergy-related. If blotchy skin develops shortly after eating a food for the first time, you probably have a sensitivity to the food and should avoid it.

Wearing clothes made of wool produces another common allergic reaction in the form of severe itchy skin.
