Spalinger, Phillips wedding at First Baptist

The First Baptist Church in Eagle Lake was the setting for a lovely candlelight wedding uniting Miss Susan Gail Spalinger and Mr. Michael Eugene Phillips on Saturday, April 16 at 5:30 p.m.

The bride, who is the fifth generation of her family to live in Eagle Lake, is the daughter of Mr. and Mrs. Charles Lee Spalinger. Her maternal grandparents are Mrs. Irene Harlan and the late Mr. Harlan of New Braunfels and Mr. and Mrs. Raymond E. Alley of Winston, Oregon. The late Mr. and Mrs. William Spalinger of Eagle Lake were her paternal grandparents.

The groom's parents are Mr. and Mrs. C. Benton Phillips of London, England. His grandparents are Mr. and Mrs. Cecil Phillips of Yerington, Nevada and Mr. and Mrs. Earl Sauble of Hat Creek, California. The Reverend J. Melburn Sibley performed the double ring ceremony before an altar decorated with Boston ferns, palms and white calladiums. A large arrangement of white gladioli and white Fuji chrysanthemums was placed beneath the stained glass window behind the altar. Arched and spiral candelabras, garlanded with

English ivy and plumous fern, were to the back and sides of the altar; and large hurricane candelabras were to each side of the sanctuary. A pedestal arrangement of Fuji chrysanthemums and gladioli was at the rear of the center aisle near the foyer, and containers of Boston fern and calladiums were placed in the foyer.

The bride was escorted to the altar by her father. She wore an A-line silhouette designer gown of ivory chiffon, imported Alencon lace over English netting, and antique lace. Lush motifs of lace and pearls highlighted the bodice of the gown which featured a Victorian neckline and long tapered sleeves.

The hemline of the 'lipper-length gown was ruffled with Alencon lace and deep scallops of Alencon lace completely around the border and was enhanced with medallions of lace on the headpiece.

She carried a cascading bouquet of white Japhet orchids, stephanotis, and baby's breath with English ivy, sprengeri fern and aglaionema foliage. For her "something old" the bride wore a gold, pearl and sapphire brooch which was a gift from her great-grandfather Calvert to his bride on their wedding day in 1904. A sixpence for her shoe was brought from England by the groom's parents.

Music prior to the ceremony was played by violinist Mr. Tim Mann of Waco, pianist Mrs. Clara May Nash of Eagle Lake, and organist Mr. Jerrold Higgins of Bastrop. Mr. Higgins played the traditional processional and recessional music.

Mr. and Mrs. Bob Griffith of Waco sang a duet, "We

Mr. and Mrs. Spalinger were hosts to a reception in the church's social rooms, where large green plants were placed at vantage points throughout the party area.

Guests were registered by Mrs. Robert (Denise) Marburger of Houston, brothers of the bride; Mark Hiltz of Plano, brother-in-law of the groom, and Fred Brauer and Rodney Wright, both of Houston.

The mothers of the bride couple were ushered to their seats at the music of "Edelweiss" was played. For her daughter's wedding, Mrs. Spalinger chose a formal gown of rose chiffon, fashioned with a demi-train skirt and lace jacket. She wore a white Japhet orchid. Mrs. Phillips wore a soft pink printed voile gown styled with a deep-V ruffled neckline and slipper-length circular skirt. Her corsage was a Japhet orchid.

The three grandmothers, Mrs. Harlan, Mrs. Sauble, and Mrs. Phillips, were given corsages of Regina Alstroemeria. The grandfathers, Mr. Alley, Mr. Sauble, and Mr. Phillips, were presented with red rose boutonnieres.

Middle School students get awards for fund raiser

Fifty-five students from the Eagle Lake Middle School were presented honors last week by the Texas Easter Seal Society. The youngsters helped raise money for disabled persons that receive help through Easter Seals.

CPL builds coal and nuclear plants to combat rising fuel costs

Because natural gas prices have increased so sharply in recent years (1,600%), Central Power and Light Company now is producing part of its electricity with a less expensive fuel—a change that holds down your electric cost.

Coletto Creek Power Station, our first coal-fired plant, generates electricity for 35% less fuel cost than our gas-fired plants, and accounts for 30% of our total production. Coal will become an even more important power source for South Texas as CPL builds and shares in additional coal-fired units.

The cost of nuclear fuel remains the lowest of all available fuel sources, so CPL is continuing its participation in construction of the South Texas Project.

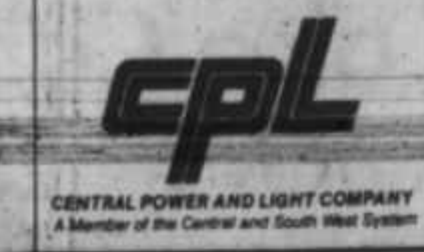

For the years ahead, CPL also is considering the use of lignite—an other low-cost fuel that could help hold your energy bills down. In fact, anytime new fuels or methods are developed that might cut production costs, CPL will investigate the possibility of using them.

While CPL works to keep your energy costs as low as possible, you can help, too, by learning new ways to control your use of electricity.

Inquire at your CPL office for information on high efficiency air conditioning units or the energy-saving heat pump that provides both heating and cooling for your home.
