Joe Mike Young wins honorable mention

Another honor has been won by a Rice High School art student, to add to the many that students have won this year.

Joe Mike Young has won an Honorable Mention award from the national Scholastic Art Awards program, sponsored in part in this area by the Houston Post.

Young, a student in one of Sandra Benges's classes, entered in the pencil drawing category.

According to the release from the Post: "Winning a Scholastic Art Award is no small achievement. National winners first must emerge as blue ribbon finalists from among the more than 150,000 entries that get professional scrutiny at 57 regional exhibits across the country in late winter. The 8,000 regional finalists then are judged by panels of distinguished artists and art educators meeting at Scholastic's New York City headquarters.

"Cooperation of art teachers throughout the country, and the judging procedures insure that the art work represents the very best teenage work in the program's 14 categories covering painting, drawing, printmaking, design, sculpture and crafts."

Cow-calf clinic set for June 3

Cattleman interested in learning what types of cattle bring the most money should attend the Cow-Calf Clinic scheduled June 3 at the Livestock Auction Barn in El Campo.

The program will feature discussions by cattle buyers as well as producers along with live animal demonstrations, says Dr. L. R. Sprott, livestock specialist with the Texas Agricultural Extension Service.

The clinic is jointly sponsored by the extension service and the beef cattle subcommittees of Brazoria, Colorado, Jackson, Matagorda and Wharton counties.

John L. Korenek, P. T. Monfort Fellowship for 1983-84.

John L. Korenek, an Agricultural Engineering student at Texas A&M University, has been awarded the P. T. Monfort Fellowship for 1983-84. John is the son of Mr. and Mrs. John Lee Korenek of Garwood.

John's study in Agricultural Engineering has enabled him to master basic and applied principles of engineering—especially those areas of engineering sciences that apply to agriculture. Agricultural Engineers have an understanding of biological and physical elements of agriculture. Specialized areas of study include: power and machinery, water, energy, crop processing, food engineering, microelectronic applications in agriculture, and systems engineering.

Area Scouts visit Governor White

Eagle Lake area Boy Scouts who recently visited with Governor Mark White from left are Steven Meinecke, Ben Gonzales, Dennis Pavlicek, Gary Sosa, Javier Cano, Gabino Guzman, Kevin Brown, and Verlin Argo.

\$10,000 pledge check

Shown above are two of the Eagle Lake Community Hospital Auxiliary members, Eunice Frnk (left) and Viola Zboril, fulfilling the Auxiliary's pledge to the hospital by presenting a \$10,000 check to Jack Harrell, hospital administrator. The pledge was made toward the purchase of a mammography, a diagnostic tool that can identify cancer too small to be evident on gross examination of biopsy tissue.

Individuals or organizations wishing to donate to this invaluable equipment may do so by contacting the hospital administrator, Mr. Harrell.

3rd grade olympic winners

Pictured from left are Bonnie Benges and Robert Parker, the winners of the third grade olympic contest. Bonnie scored 28 points to win the girl's competition and Robert scored 18 points to win the boy's division. The winners were chosen on the total point score of the eight events.

Tait Chapter honors senior members

Colonel Charles W. Tait, Chapter No. 668, Children of the Confederacy, Columbus, held its meeting and senior party in the Jimmie Simmons home. Hostesses were: Miss Randa Wegenhoff and Miss Lisa Glueck and host was Robert Glueck, Miss Mary Elizabeth Duff, a senior at Saint Agnes Academy in Houston was the honored member.

The president, Miss Sarah Jo Cranek, opened the business meeting. A prayer was given by Kevin Krhovjak followed by members reciting the Creed. The pledges to the American and Texas flag were given and the salute to the Confederate flag. In the chapter leaders' message she asked members to write an essay on the suggested topics for the

The chapter elected the following officers for 1983:

LVN League reports meetings

The Colorado Fayette County LVN League has been having all their monthly meetings, but because of the illness and death of Bernice Karber, mother of Mrs. Marie Renken and Mrs. Selma Berger, mother of Mrs. Billie Jean Hudson, we have not put the meetings in the paper as we usually do.

On February 15 meeting, the program was by Victor Scott on Mental Health/Retardation. Slides were shown by Mrs. Janie Lowrey.

March 15 meeting was held in Weimar, with the program given by Mrs. Carol Robinson and Doctor Chudley. The main points of interest was breast cancer and other types of cancer was discussed.

April 19 meeting was held in Columbus. Doctor H. Griffin gave a very interesting program and showed slides of facial cancer and disfigurements. He showed how cosmetic surgery can be done to correct many of these problems.

May 17 meeting was held at the Eagle Lake Community Hospital. Fred Beth of the Rice Drug Store presented a program on drug abuse. Mr. Beth held a question and answer period for the group. The younger and some of the older groups found the topic very important and interesting.

Installation of officer was held by Mrs. Marie Renken. Refreshments were served to 16 members and one visitor who has joined the league.

Beware of tick fever

With a large tick population this spring due to the mild winter, Rocky Mountain spotted fever is an increased threat, says an entomologist with the Agricultural Extension Service. The disease has already caused two deaths in Texas this year. It's spread by the Lone Star tick. First symptoms include sudden onset of headache, fever and aching muscles.

Richard Higgins, vice president John Herring family reunion

Richard Lee Higgins, formerly of Eagle Lake, joined the North Texas Production Credit Association as assistant vice president this spring and now has been promoted to junior vice president.

In a recent announcement by Dwyatt Bell, North Texas Production Credit Association president, he said Higgins is an addition to the loan officer staff at the association's Sulphur Springs office.

Higgins graduated from Texas A&M University in 1976 with a degree in agricultural economics. At A&M, he was a member of the Cadet Corps and the Ross Volunteers, an organization composed of juniors and seniors who have demonstrated outstanding leadership, scholarship and military bearing.

Since 1975, Higgins has been privately engaged in rice, soybeans and commercial cattle operation in the Eagle Lake area.

He is married to the former Maitha Wind of Garwood, and they have two sons, Lee, age five years, and Michael, three years.

The Higgins family is residing in Sulphur Springs where Richard will be assigned to agricultural loan accounts in Hopkins, Franklin, Titus and Camp counties.

John Herring family reunion was held at the lovely home of Mr. and Mrs. Gerald Herring on May 1, 1983 in Cleveland, Texas. About thirty-five family members attended the gathering for a covered dish luncheon.

After the guests registered, names were drawn for door prizes. Francis Herring made a linen table cloth which was divided into squares for each year beginning with the year 1977 when the first reunion was held at the home of Mr. and Mrs. Leon Herring in Columbus, Texas. Each square lists the names of those who attended and the location of the gathering.

Mrs. Elizabeth Herring made roses for each family unit. These hand-made gifts were such a hit that everyone voted to participate in making small items for the next reunion which will be held at Mr. and Mrs. Rubie Drymally's country place.

Traffic fatalities show decrease across state

Statewide traffic deaths decreased last year for the first time since 1976, according to statistics released by the Texas Department of Public Safety.

Colonel Jim Adams, DPS director, said 4,271 traffic fatalities were reported in 1982, a reduction of 9.1 per cent compared to the previous year. The mileage death rate decreased 12.8 per cent to 3.4 deaths per hundred million miles traveled in 1982 compared to 3.9 in 1981.

Adams believes the reduction in fatalities resulted from several factors.

"Stepped-up enforcement by DPS and local officers brought about a 25 per cent increase in DWI arrests last year," he said. "The highway patrol also has been concentrating on speed enforcement, and this has helped bring the top speeds down on our highways."

The director said public concern about DWI has contributed to the decrease in fatalities.

"Widespread attention by the news media and citizen groups to the drunken driving problems has increased the public's recognition of the seriousness of this menace," Adams pointed out.

"Motorists who drink now have a greater fear of the consequences of driving under the influence of alcohol, and consequently are being more careful. Our challenge now is to sustain this public concern to help turn this temporary reduction into a lasting accomplishment. Pending DWI legislation will assist greatly in this respect."

Adams noted that 25 per cent of the statewide fatalities (1,066) were DWI related.

"We still maintain that this statistic would be in the 50 per cent range if state law required blood alcohol measurements from all drivers involved in fatal accidents," he said. "But this figure makes it plain that DWI remains one of the leading causes of traffic deaths."

Motorcycle operator and passenger deaths totaled 403 in 1982, an 8.8 per cent decrease compared with the previous year. Four out of five of the motorcyclists killed were not wearing protective headgear when the accident occurred.

More than 98 per cent of the persons killed in passenger vehicles were not wearing seat belts.

"Although we saw a significant reduction in all statewide fatalities last year, the number of persons injured in traffic crashes decreased less than one per cent to 204,666," Adams said.

According to estimates by the state department of highways and public transportation, motorists traveled 124.91 billion miles in 1982, representing a four per cent increase over 1981.

Soybean outlook clouded

Despite some price strengthening as a spinoff from PIK (the government's payment-in-kind program), a clouded outlook for soybeans, says a Texas Agricultural Extension Service economist.

"Texas soybean growers will likely receive between \$5.50 and \$6.50 per bushel for their 1983 beans—slightly above last year's price," predicts Johnny Feagan. "And the state's soybean acreage will likely be down sharply from the 920,000 acres harvested in 1982 when the crop sold for \$125 million."

Soybean prices have improved some due to the high farmer participation in PIK regarding feed grains, cotton and rice. (Soybeans are not included in PIK.)
