"Kitchen Help"

TIPS TO CLIP

Fair time means animals, rides, food, games, music and more. For many folks it also is time to test culinary skills. Hours of cooking and baking result in mouth-watering displays in the food exhibits. But certainly there were some battles lost on the way to victory. What can we do to prevent these kitchen calamities?

Cooling meringue very slowly will avert a weeping problem. Just leave it in the oven as it cools, with the door ajar.

When a recipe calls for molasses or other sticky syrups, butter the measuring cup and your rubber spatula for no-stick ease. Crystallized syrups and honey can be restored by heating them gently. Stand them in a bowl of hot water.

Dip your knife in very hot water occasionally when trying to spread gooey icing.

Bits of egg yolk sneak into your egg whites? Moisten a cloth with cold water, touch it to the yolk. It will cling and can be pulled right out.

When a stubborn loaf of bread sticks to the pan, wrap the whole works in a dry towel and let stand for 5 minutes. Unwrap and the loaf should slide right out. For contrary muffins, set the hot "tin" on a wet towel for a few minutes.
