'Why are heat pumps getting so popular for air conditioning and heating? Just ask me.'

"As a meter reader, I'm in a good position to tell you the answer: they really do use less energy. Installing a heat pump is one of the best ways I know to slow down those dials on your meter and save money on utility bills all year long."

"I've been working for CPL for almost nine years now, and I see more heat pumps in yards all the time. I don't see even more of it of folks didn't have mistaken ideas about heat pumps and think they're used only for heating."

"The truth is a heat pump gets a lot of use in the summer, too, because it gives you air conditioning as well as heating. In other words, it keeps you comfortable all year long."

"I'm no engineer, but I can give you a quick explanation of how it does all that. In the winter, a heat pump takes heat from the outside air and moves it into your house. Then, when the weather gets warm, it works in the opposite direction - it moves heat from inside your house to the outside."

"Heat pumps are a good choice in our part of the world, since they do their best work in energy-saving mild climates like ours. Word about that must be getting around. The way things are going, I expect I'll spot several new heat pumps on my route this month."

"Maybe one of them will be in your yard."

Opinion

DWI law is tougher than ever

On January 1, the bills approved during the legislative session last spring became law, and for most Texans, the dramatic change in the DWI laws. The crackdown on drunk drivers was among the most emotional of legislative issues, and proponents of DWI reform got almost everything they wanted out of the Legislature.

Although lawmakers resisted passing the "Open Containers Bill," which would make it illegal for anyone in the vehicle to have an open container of alcohol, the following changes were approved, effective Jan. 1, 1984:

"Mandatory jail time for repeat offenders: first offenders may still get probation, but a second offense within 10 years requires a minimum of 72 hours in jail, and a third offense carries a 10-day jail sentence, even if later acquitted."

"Mandatory specimen-taking: officers are required to take a specimen of the DWI suspect's blood, breath or urine in alcohol-related traffic accidents where a person has died or is likely to die."

"Penalty for lending car: any person who knowingly lends a motor vehicle to a person whose license has been suspended for a DWI-related offense."

"Forfeiture of vehicle: a county may seize and sell the vehicle upon conviction of a fourth DWI offense."

"Senate redistricting: The long, drawn-out struggle to redraw and approve new voting boundaries for Texas senatorial districts came to a close last week when a three-vote federal panel approved the plan passed by the Legislature last spring."

"The plan is final until lawmakers must redistrict again in 1990. Communications asked the Public Utility Commission for a 27.8 percent increase in long distance rates."

"If allowed, the increase would generate over \$300 million in revenues for AT&T. The company says it must pay most of the cost of the new money to Bell Telephone for use of equipment."

STATE CAPITAL HIGHLIGHTS
By Lyndell Williams
TEXAS PRESS ASSOCIATION

Two candidates for the U.S. Senate seat being vacated by John Tower nailed another plank on their campaign platforms last week.

Democrat Bob Krueger, a former congressman, and ambassador to Mexico, called for full parity for farmers and ranchers."

He also urged the U.S. to buy and stockpile Mexican oil to bolster the border economy. Republican Congressman Paul of Houston, a medical doctor, advocated a return to the free-market system, including doing away with food stamps and welfare programs for the poor as well as eliminating the subsidies for giant corporations and banks."

He also said he wants to limit foreign aid to communist bloc nations. Rate hike request: One week after being granted \$650 million emergency rate hike, AT&T Communications asked the Public Utility Commission for a 27.8 percent increase in long distance rates."

"If allowed, the increase would generate over \$300 million in revenues for AT&T. The company says it must pay most of the cost of the new money to Bell Telephone for use of equipment."

State officials were striving last week to reconstruct the \$500 million settlement of their lawsuit. The magical mystical year 1984 is upon us. To many people, 1984 is the year of the final holocaust; to others, it is the time of the return of Christ to redeem his promise of salvation. Still others believe that 1984 is the year in which the human race will join the congregation of the universe, by virtue of the will and presence of "Big Brother," either to be accepted as equals or be destroyed because of our preoccupation with death and destruction."

Peggy J. Byrn Private Citizen P.O. Box 443 Eagle Lake

Names, numbers valued
To The Editor: I appreciate your printing the names and addresses of our U. S. and Texas representatives. I also know that your printing the local emergency numbers is valuable for all our readers. Elizabeth Boothe (Note: The box in the upper left corner of this page contains the information Mrs. Boothe refers to. The addresses, suggested, some time ago by Mrs. Boothe, alternate weekly with the numbers. — John Fearing)

This opinion page is meant to be a sharing of ideas, not just the writer's views. Its objective is to stimulate thoughts of readers about the positive aspects of the Eagle Lake/Colorado County Community.

against Mobil Oil which was killed by the last minute intervention of the Exxon Corp. The state seeks to find a third party to buy mineral rights on the disputed oil lease land. An anonymous third party had agreed to do that in the original settlement, but allegedly backed out when Exxon's delay destroyed the end of the year tax advantages.

Senate race: Two candidates for the U.S. Senate seat being vacated by John Tower nailed another plank on their campaign platforms last week. Democrat Bob Krueger, a former congressman, and ambassador to Mexico, called for full parity for farmers and ranchers."
