'Why are heat pumps getting so popular for air conditioning and heating? Just ask me.'

parent is to bring one meat Boy Scouts of America by

dish and one other dish receiving an award for the

Cub Scout News

The truth is a heat pump gets a lot of use in the sum too, because it gives you air conditioning as well as heating In other words, it keeps you

winter, a heat pump takes heat from the outside air and moves it into your house. Then, when the weather gets warm, it works in the opposite direction —it moves heat from inside your house to the outside. "Heat pumps are a good choice in our part of the world, since they do their best work as mergy-savers in a mild climate ike ours. Word about that must be getting around. The way things are going. I expect I'll spot several new heat pumps on my route this month.

comfortable all year long.
