Mae Price, S.A.D. and resident Walter Padon enjoy walking along the beach at Matagorda looking for shells.

Junior-senior olympics held in Bay City May 16

The Coastal Bend Region Nursing Homes of ARA Living Centers held a junior-senior olympics at the Le Tulle Park in Bay City on May 16. Five residents from the Heritage House in Eagle Lake participated with two of the residents bringing home ribbons. Raymond Harper won first place in the bean bag throw and Walter Padon won third place in the basketball tournament.

After a badly needed and much prayed for rain that ended the olympics, all residents and staff gathered under the covered picnic area to visit and enjoy a picnic lunch.

After lunch the residents were taken on a trip to Matagorda to wade in the surf and collect shells. Everyone had a great time and are planning another outing to the beach in the near future.

Hernandez attends U.S. Army 22nd national symposium

A Rice High School student returned Saturday night from LaCrosse, Wisconsin, having been a member of the Texas Delegation to the U.S. Army 22nd National Junior Science and Humanities Symposium.

Victoria M. Hernandez, daughter of Mr. and Mrs. Felipe Hernandez of Eagle Lake, attended the symposium May 23-26, held on the campus of the University of Wisconsin at LaCrosse. Accompanying her on the trip was her teacher, Ms. Catherine Balusek.

A total of 206 students from 43 regional competitions across the United States, Puerto Rico and the Department of Defense Schools of Europe and the Pacific, won all expense paid trips to the symposium. The first place winner from each region presented their research at the National Symposium, and the top seven student presenters at the National JSHS were selected to attend the London International Youth Science Fortnight. The Fortnight is held at the University of London in late July and has in attendance approximately 400 students from 30 nations.

Ms. Hernandez was invited to attend the National JSHS after having been named alternate at the 11th annual Texas Junior Science, Engineering and Humanities Symposium, held March 6-8 on the campus of the University of Texas at Austin. It was there that she presented her research paper entitled "Toxic Shock Syndrome: Does the Presence of a Tampon or a Contraceptive Sponge Promote the Growth of Staphylococcus Aureus?" Due to the illness of David Levy of Stratford High School in Houston, one of the state winners, Ms. Hernandez was informed in late April that she would attend the symposium.

Attending the symposium along with Ms. Hernandez were Alexandria Shahan from Victoria High School, Darla House from Conroe High School, Tad Kellogg from Castleberry High School in Fort Worth, and Tori Spivey from China Spring High School. Ms. Spivey presented her paper entitled "Is Sound Fatigue a Health Hazard?" in the research presentation competition. Attending as sponsors were George Leonberger, chemistry teacher from Mt. Pleasant and Ms. Balusek.

The symposium consisted not only of the research competition and guest speakers, but also of off-campus laboratory tours, and tours of the local area. Highlights of the trip were visits to the U.S. Fish Research Laboratory and the Tri-State Breeders Genetic Engineering Laboratory. Also, the students attended a Riverboat tour down the Mississippi, a performance of the local Improvisional theater group, a pitch-fork fondue picnic, and a banquet and awards ceremony.

According to Ms. Hernandez, the experience of attending the National JSHS was not only informative, but also enjoyable. Although much work is required for a student's research project to make it to national's, Ms. Hernandez has already started working toward next year's symposium, to be held at West Point, New York.
