Our neighbor gave us the good word about heat pumps.

Who's zat?

BY KRISTINE CARPENTER

Who is this energetic young lady with the big brown eyes? Rachelle Hunt and Derrick Williams were incorrect guessers this week because they guessed that she was Mary Hernandez. Kelley Jarvis said that the face was extremely familiar, so she guessed Vivian Cumpian. After a few minutes of contemplating Mr. Davidson replied that it was Yolanda Rangel.

Mike Sonntag, John Adkins, Temple Thomas and Audrey Stovall were all correct guessers. This familiar face belongs to varsity cheerleader Bertie Garcia. Bertie is a senior at Rice High School and plays varsity basketball for the Lady Raiders.

Until George told me better, I always assumed that a heat pump was just a heating system. Well, it's that, of course—but it's also an air conditioner that does a great job of cooling and dehumidifying our home every summer.

So what we have now is this neat all-in-one system that keeps the house comfortable all year round—and does it efficiently, too, so that we save money on utility bills.

Old George next door has done a lot of favors for us over the years. He took the kids to the circus, let us borrow his tools, even helped out when we repainted the house.

But the best thing he ever did for us was advise us to get an electric heat pump when we had to replace our central air conditioning unit. Now that was neighborly. Buying that heat pump was one of the smartest moves we ever made.

So what we have now is this neat all-in-one system that keeps the house comfortable all year round—and does it efficiently, too, so that we save money on utility bills.

So what we have now is this neat all-in-one system that keeps the house comfortable all year round—and does it efficiently, too, so that we save money on utility bills.

So what we have now is this neat all-in-one system that keeps the house comfortable all year round—and does it efficiently, too, so that we save money on utility bills.

So what we have now is this neat all-in-one system that keeps the house comfortable all year round—and does it efficiently, too, so that we save money on utility bills.

So what we have now is this neat all-in-one system that keeps the house comfortable all year round—and does it efficiently, too, so that we save money on utility bills.

So what we have now is this neat all-in-one system that keeps the house comfortable all year round—and does it efficiently, too, so that we save money on utility bills.

So what we have now is this neat all-in-one system that keeps the house comfortable all year round—and does it efficiently, too, so that we save money on utility bills.

You see, a heat pump uses less energy because it doesn't have to make heat; it simply moves it. In the winter, it removes heat from the outside air and transfers it inside. When the weather is warm, it collects heat and moisture from inside the house and moves it outside.

I'm convinced a heat pump is the best heating/cooling unit you can choose—especially in our part of the country where the winters are mild. In South Texas, a properly installed heat pump produces at least 2 1/2 units of heat for every unit of energy needed to run it.

The more I think about it, the more grateful I am to old George for being such a good neighbor. Maybe I ought to do something nice for him today. Like return his hedge clippers.

Our new HOMESTYLE FULL MEAL DEAL™ is better than ever.

But it still doesn't amount to much.
You're gonna find that our new HOMESTYLE Full Meal Deal™ amounts to a lot of good eating. With a quarter-pound, 100% beef HOMESTYLE Hungry-buster™ that looks, cooks and tastes like homemade. A regular order of golden french fries. A refreshing medium soft drink. And a creamy 5 oz. D.O. Sundae with your choice of topping. But where it doesn't amount to much is at the cash register. It's still only \$2.59. And only at Dairy Queen.

STILL ONLY \$2.59
