FHA/Herz Week honor teachers and students

By SUSAN KALUZA
February 10-14 was FHA/HERZ Week and National Vocational Education Week. During that week, Rice FHA members did many things for teachers and students.

All week each FHA member wore a nametag in the shape of a heart with FHA/HERZ and his/her name on it. Tuesday was color day in which all FHA members wore red and white. Thursday was teacher appreciation day and the FHA members distributed carnations to all teachers in appreciation for their hard work. Friday was student appreciation day in which all students were given a sticker.

The FHA received thank you notes from the teachers for thinking about them at a time when teachers must face many career decisions. This type of appreciation from the FHA encourages teachers that their work is greatly appreciated.

BOM class rising up

By DOLORES SOTO
The Business Organization and Management class has been trying their luck in the stock market this past week. Mrs. Engstrom, BOM teacher, feels that the students are learning a great deal about the stock market and that it is primarily a guessing game and not always a safe investment as some believe.

With many of the students investing in booming stocks, they are beginning to feel the enjoyment of being rich. Others seem to have no luck at all with their misjudged investments and usually end up in debt. The experience of investing and selling is a very good lesson to all the students, which will prepare them for major decisions they will face in the future. Remember, invest wisely!

THE NATURAL GAS DIFFERENCE.

Save money and energy with a new gas water heater.

Gas can heat 1 gallon of water for the same amount of primary energy it takes to heat one electrically.

Natural gas water heaters work faster, so there's always an abundance of hot water. When buying a new home or replacing your old water heater, invest on dependable natural gas. Save money, stay comfortable, with the more efficient energy source. See your gas appliance dealer or call EnTex. And remember: when you use natural gas wisely, you're conserving our natural resources.
