NOTICE OF APPLICATION FOR WASTE DISCHARGE PERMIT RENEWAL

CITY OF EAGLE LAKE, P.O. Box 35, Eagle Lake, Texas 77434 has applied to the Texas Water Commission for renewal of Permit No. 10505-01 which authorizes a discharge of treated domestic wastewater effluent at a volume not to exceed an average flow of 500,000 gallons per day. The facility is located 400 feet southeast of the intersection of U.S. Highway 90A bypass and McCarty Avenue, being also 0.5 of a mile northwest of the intersection of Farm-to-Market Highway No. 102 and U.S. Highway 90A, in Eagle Lake, in Colorado County, Texas. The effluent is discharged into a drainage ditch; thence into Eagle Lake, thence to an unnamed tributary, thence to the Colorado River below Smithville in Segment No. 1402 of the Colorado River Basin.

In accordance with the Texas Surface Water Quality Standards, the Commission staff must determine the existing uses for the receiving water in the area of the proposed discharge and whether the proposed discharge will cause significant degradation to any of high quality waters in the area. The unclassified receiving waters of the drainage ditch have no significant aquatic life uses and the receiving waters of Eagle Lake have high aquatic life uses. The designated uses for Segment No. 1402 are contact recreation, high quality aquatic life uses, and public water supply. The effluent limitations in the draft permit will maintain and protect the existing instream uses. All determinations are preliminary and subject to additional review and/or revision.

The Executive Director of the Texas Water Commission has prepared a draft permit which, if approved by the Commission, will enforce more stringent effluent limitations in order to meet existing applicable rules and regulations. It is proposed that the expiration date of the renewed permit be specified as midnight, five years after date of Commission approval.

Legal Authority: Section 26.028 of the Texas Water Code and 31 TAC Chapter 305 of the Rules of the Texas Water Commission.

No public hearing will be held on this application unless an affected person who has received notice of the application specifically requests a public hearing. Any such request for a public hearing shall be in writing and contain (1) the name, mailing address and daytime phone number of the person making the request; (2) the statement "...request a public hearing"; and (3) a brief description of how the requester, or persons represented by the requester, would be adversely affected by the granting of the application. If the Commission determines that the request sets out an issue which is relevant to the application, or that a public hearing would serve the public interest, the Commission shall conduct a public hearing, after the issuance of proper and timely notice of the hearing. If no sufficient request for hearing is received within 30 days of the date of publication of the notice concerning the application, the permit will be submitted to the Commission for final decision on the application.

Requests for a public hearing on this application should be submitted in writing to Jerry D. Sullivan, Assistant Chief Hearings Examiner, Texas Water Commission, P.O. Box 13067, Capitol Station, Austin, Texas 78711, Telephone (512)464-8061. Information concerning any technical aspect of this application can be obtained by writing Noble J. Campbell, Wastewater Permits Section, Texas Water Commission, P.O. Box 13067, Capitol Station, Austin, Texas, Telephone (512)463-6201.

Issued this 13th day of December, 1991.

Gloria A. Vasquez, Chief Clerk
Texas Water Commission
