Floodplains and Wetlands

Notice of Explanation

The City of Eagle Lake, Texas, intends to undertake an improvement program for the sewer collection system for the city. A portion of the project is located in the 100-year flood plain. This program will provide improved sewer services for a minimum of 814 persons. Proposed sewer system improvements cannot be undertaken in any other location as relocation costs would exceed available program resources. Failure to provide the sewer improvements would result in potentially unsafe and unhealthy living conditions for the community.

It is the City's judgement that the improvements to the sewer system outweighs consideration of Executive Order 11988 and 11990. A more detailed description of the project and the FEMA flood maps are available for citizen review at the City Hall, City of Eagle Lake, P.O. Box 38, Eagle Lake, Texas 77434.
