Leave fawns, other newborn wildlife alone

Many Texans are concerned about wildlife and will do what they can to protect them. The Texas Game Land, which manages the state's wildlife, has a policy of not interfering with wildlife in its natural habitat. This means that hunters should not hunt or harass newborn wildlife, such as fawns, until they are able to care for themselves.

Written, signed lease protects hunter, landowner

A written and signed lease is essential for protecting both the hunter and the landowner. The lease should clearly outline the terms of the hunt, including the area to be hunted, the type of game, and the duration of the lease.
