Rookies split season opener with Victoria Gunslingers

The Rice Rookies opened the 1995 season Saturday night hosting the Victoria Gunslingers at Rice High School field. They played a double header with the first game starting at 6 p.m.

Kevin Jackson, who started on the mound for the Rookies, went the distance. He had a fine first outing, giving up seven hits, striking out four and allowing only three walks. Kevin showed great command of his breaking ball throughout the game. Unfortunately, the Gunslingers managed to cross pay dirt three times with seven hits.

The Rookies were unable to manufacture any offense, collecting only one hit, a single by Jackson in the fifth inning.

Due to no offense, the fine pitching performance was wasted and the Rookies lost the first game 3-0.

The Rookies bats came to life during the second game of the double header, collecting nine hits and scoring 11 runs in six innings. The games lasted only six innings due to the run rule.

The Rookies came out aggressive, batting around and scoring six runs in the first inning.

Tweet Ford led the team offensively with three singles, two RBI's and two stolen bases. Shortstop Rodney Mayo also had a pair of hits.

The Rookies went on to win 11-3.

The Rookies were fortunate to have great pitching in game two as well. Damon Massey pitched the entire game. He allowed seven hits, struck out six batters and gave up no walks.

The curve ball was Damon's bread and butter pitch. His success was due to outstanding control. He kept the ball on the corners of the plate all night.

The Rookies proved to be strong defensively throughout the two games, committing only two errors.

The team will travel to Shiner next Sunday to play the Clippers, with game 1 starting at 2 p.m.; game 2 should start around 5 p.m.

Everyone is invited to come out and watch the Rookies.

Old Timer's Baseball Asso. meeting May 28 in Hallettsville

The 26th annual meeting and barbecue will be held on Sunday, May 28, in the American Legion Hall in Hallettsville. This will enable those wishing to visit the exhibit in the Lavaca Historical Museum a chance to do so, before and after the meeting.

Registration begins at 1 p.m.; visitation period is until 2:30 p.m. followed by the business program which includes an election of officers, presentation of Hall of Fame certificates and other awards, as well as door prizes.

The association would like to start something new... recognition of former players who were named to All-Star teams during their playing days.

There are some teams from the Guadalupe Valley League 1946-1950, and perhaps one from the old South Central Texas League of the 1930s.

If such players can be identified, pictures will be taken and added to the museum. If anyone has any information on former leaguers, please bring it with you or send it when you order your tickets.

The guest speaker will be John "Red" Murff, former professional player and big league scout who gave a good program last year.

In addition to talking more baseball, he will also have something new to do. His new book for children will be on display and the Old Timers will receive a percentage of each sale.

Red's story telling has earned him the book that was published last fall. The book was highly praised by teachers and school counselors as a valuable resource in working with youngsters.

Members are asked to send annual dues of $2 and your order for meal tickets as soon as possible, no later than May 22.

Meal tickets are $4.50 if purchased in advance and $5 if bought at the door.

Send dues and ticket orders to Fred A. Scheske, P.O. Box 75, Gonzales, Tx. 78629; or Bill Midkiff, 1222 St. Louis, Gonzales, Tx. 78629.

Foot Facts

By Dr. Eric R. Tepper, Podiatrist

WHAT'S A WART AND WHAT'S NOT

The feet are prone to developing all sorts of bumps and lumps. A danger sometimes arises when people spot one type of growth and begin self-treatment according to what they think it is, when in fact, the growth is something entirely different. The plantar wart is often a prime target of such mistaken identity. Because they commonly occur on the bottom, or "plantar", part of the foot or one of the toes, warts can appear to the untrained eye to be corns or callouses. Characteristics include a spongy appearance and small dark spots (from the blood vessels that feed the warts) in the center. A faint, light ring may encircle the growths. An accurate diagnosis can be the first step toward safe, successful removal.

Feet seem especially susceptible to skin problems of all kinds, including warts. It might be because of all the time they spend in dark, moist places, or it might be because of the lack of attention they get. Whatever the cause, your podiatrist is well-equipped to help provide the cure, from medication to surgery. Don't take another step until you see us for family foot care at the Eagle Lake Community Hospital. I am available the first and third Tuesdays of the month. Call 234-5571.

P.S. Most surgical wart removal takes only minutes under local anesthesia, with the patient walking away from the procedure.

Prescription Medicines Now Approved Faster

According to *FAX-STAT on Drugs*, a weekly publication of Facts and Comparisons, the U.S. Food and Drug Administration (FDA) in its own internal review, is giving itself high marks for its rate of new drug approvals for 1994. According to the report, the FDA has substantially increased the speed of new drug approvals. For example, the average time for approving 62 new drugs in 1994 was 19 months. This is about 20 percent less time than it took for drugs receiving approval in 1993. The FDA indicates that the new user-fee program required of manufacturers is the major reason for the reduction in time it now takes for new prescription medicines to be approved. Examples of new approvals in 1994 include:

Metformin (*Glucophage*): For non-insulin dependent diabetics who cannot be managed on diet alone.

Cysteamine (*Cystagon*): For children with a rare kidney disease.

Abciximab (*ReoPro*): For use in heart angioplasty procedures.

Salmeterol (*Serevent*): A long acting inhaler medicine for asthma.

Tacrolimus (*Prograf*): To prevent rejection after liver transplants.

Fluticasone (*Flonase*): A once-a-day nasal spray for rhinitis.

You've been there to laugh with me, to be proud of me, and to be happy for all the good things in my life.

You're a very important part of my world, Mom. You always will be.
So I want to thank you now and tell you that your memory will always be there, because I love you and miss you.
