**Robby Cook has two Very Special Interests:**  
**Our Environment and our Children**

**Our Environment**-Anyone living along the Colorado River knows that we have a unique water resource that must be protected. We all rely on the Colorado either directly or indirectly.

Robby Cook is a member and an original director of the Alliance for a Clean Environment, which has fought against hazardous waste dumping in Colorado County for five years.

Robby knows that waste dumping could degrade our water supply and the waters of the Colorado. As a fourth-generation rice farmer, Robby is aware of the importance of water for irrigation as well as municipal, industrial and other uses within the river basin. We must protect what is ours from the large urban areas as they cast an eye toward our precious resources. Robby Cook will continue the fight to protect the Colorado River and our water supply.

**Our Children**-Robby Cook is keenly aware that our children need more than a quality education to assure a future in rural Texas; they need jobs in our own communities. As a Chamber of Commerce member and a small businessman, he has worked diligently to see that economic opportunities for our young people continue to thrive.

During his tenure as Mayor of Eagle Lake, Robby has given economic development projects priority attention, including airport and sewer improvement grants, neighborhood renovations, and more. With his proven background as a coalition builder, Robby knows that rural Texas must pool its resources to protect our quality of life--to keep our families together.

Robby Cook wants our kids to stay home. He'll work hard to make sure jobs are here for them in rural Texas.

**Our way of life... preserve it, protect it. Robby Cook wants two of our most precious resources--our children and our environment--to endure. Robby Cook will work for rural Texas. Your vote in the Democratic Primary will be appreciated.**

**An even bigger one!**  
 James Wright stopped by The Headlight office to proudly show off the 48-pound yellow catfish she caught Monday, March 4, at the pumping plant at Lakeside. She was using her "secret" bait again on, believe it or not, 15-pound test line! Even so, it only took her 20 minutes to land the monster... much quicker than one would think. She said she was going to catch a 60-pounder next... sure hope there's someone around to help her lift that one!
