Actual photograph of the eardrum can help determine if you have any of several common ear canal problems. Pictures are not for medical diagnosis

The Video Otoscope is a miniaturized camera that displays an exceptionally clear picture of your ear canal on a full-color monitor and then prints out a color photograph.

You can see for yourself if there is a wax problem.

If you wear a hearing aid, the Video Otoscope can help determine the cause of fitting problems and other difficulties.
