## Museum

Continued from Page 2

begin to arrange and update storage of their abundant information in a modern and easily retrievable system.

To accomplish all of these exalted aims, PEM is purchasing a proven package of museum software called Past Perfect. It costs several hundred dollars. This program will become available once PEM supporters come forward and donate \$25 to \$50 (payable to PEM) to help defray the cost. Believe your volunteer museum workers, it's a good deal!

## Teachers

Continued from Page 3

Nelson.

35 years: Fred Grahmann. Retirement plaques were presented to: Marie Glover, 29 years; Earline Botard, 20 years; Maggie Henderson, nine years; Charlene Lawson, 18 years; and Pauline Leopold, 15 years.

Smith complimented teachers on the improvement in scores reported on this year's TAAS test.

Door prizes were awarded. The group then adjourned to their respective campuses to finish records and check-out.

It was evident that positive things are happening in the RCISD.

## Did You Know...

•The first scheduled passenger airline service began in 1914, just 11 years after the invention of the airplane.

•The percentage of small cars sold in the U.S. has declined from 38.4% in 1987 to 27.3% in 1996.

•Patient Counseling • We Accept Master Card, VISA, Discover & American Express •Insurance Plans: Blue Cross, NPA, PCS, Pro-Serve, Sanus, PAID, Texas Medicaid

24 Hour Emergency Phone: 234-3834

## Medicines and Diet are Effective in Blood Pressure Control

The Framingham Heart Study is the longest ongoing health-related study in the US. According to the study, high blood pressure and heart enlargement in men has been reduced significantly since the 1950s due to the use of high blood pressure medicines. Earlier this year researchers reported that the incidence of high blood pressure in men had been reduced by 50% and the incidence in women was reduced even more. This is good news for the 50 million persons who have this condition.

Blood pressure medicines such as **diuretics** (water pills) help eliminate sodium and water from the body. **Calcium channel blockers** relax the heart muscle by preventing the flow of calcium into tissues of the circulatory system. **Beta blockers** protect the heart from stimulation by adrenalin. **ACE inhibitors** block a chemical that causes blood vessel constriction.

Dietary approaches to blood pressure control include reducing sodium and alcohol and increasing dietary potassium. In a study published in *Archives of Internal Medicine*, a diet rich in vegetables and fruit, high in protein, and low in fat significantly lowered high blood pressure.

## EAGLE LAKE PRIMARY SCHOOL
