Yearbook Staff hard at work

By Jenna Hoffman
Raider Review Staff

The yearbook staff has been hard at work preparing for the 2000-2001 Rice Raider Yearbook. When asking for ideas for the theme of the upcoming yearbook, no one could argue with the title, "2001: A Raider Odyssey." All staff members felt that the everyday lives of students attending Rice could be captured through this title. Staff members include Stacy Schneider, editor; Kinsey Hoffman, business manager; Jenna Hoffman, senior editor; Kayce Wilkerson, classes edi-

tor; Meagan Staff, academics editor; Jeremy Walker, activities editor; Jessica Thomas, organizations editor; Tiffany Stern, sports editor; Nakeshia Parker, faculty editor and newspaper editor of the Raider Review.

The staff will meet with Tammy Holier of Taylor Publishing Tuesday, Sept. 26, to finalize the cover design for the yearbook.

Homecoming King, Queen nominees

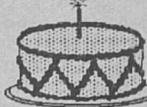

The Rice High School Senior Class has made its nominations for Homecoming 2000 King and Queen. Voting will take place on Thursday. The King and Queen will be crowned during half-time activities on Friday night.

Pictured in front, from left, are Sarah Gould, Stacy Schneider, Jenna Hoffman, Leslie Waddell, Cindy Osornio and Samantha Bluntson.

In back are Koehl Crane, Kurt Coldeway, Cliff Keith, Anthony Salinas and Jacob Little. Not pictured is Paul Valles.

Foot Facts

SUCCESSFUL HAMMERTOE SURGERY

Surgery to correct hammertoe deformities keeps patients pain-free for years, according to a recent study published in *Foot & Ankle International*. A hammertoe occurs when a toe bends in a claw-like position. While any toe can be affected, the second toe is most common. This often occurs when a bunions forces the big toe to turn in and push the second toe. Hammertoes can result in painful corns and calluses at the joint, as the toe persistently rubs against the shoes. The surgery, PIP arthroplasty, realigns the toe by releasing joint ligaments and removing some bone from the toe at the affected joint. The toe is then straightened and splinted in position.

If surgery is the recommended course of action to get rid of hammertoes, you'll be glad to know that today's techniques make the process easier and faster and recovery is quite a bit more comfortable than just a few years ago. If you are a victim of hammertoes, consider professional help from Rice Medical Center. Our techniques are up-to-date, with three basic goals: to relieve pain, restore function, and improve appearance. For a consultation, please call us at 234-5571. Tuesday appointments available.

P.S. In the study mentioned above, 92% of hammertoe surgery patients reported they were pain-free after five years.
