TREATING FUNGAL INFECTIONS

common. During the summer, the toenail infections occur more frequently, as

people spend more time walking barefoot in places where bacteria and fungi can

lurk - around pools, at the beach, etc. Feet also tend to sweat more in warm weather,

which can contribute to an infection. Three relatively new oral drugs have shown

promise in treating fungal infections. Itraconazole (sold as Sporanox), flucon-

azole (Diflucan), and terbinafine (Lamisil) work by helping a new infection-free

toenail to grow, replacing the old one. While infections can recur, they are more

common with oral medications used in the past like griseofulvin and ketocon-

infections. It might be because of all the time they spend in dark, moist places, or

it might be because of the lack of attention they get. Whatever the cause, your

podiatrist is well-equipped to help provide the cure, from medication to surgery.

RODEO, ARENA EVENTS

The 6th annual Colorado County Fair Rodeo and Bull & Barrel Bash promise to be even bigger and better than last year! Rodeo action will begin Wednesday night with an invitational team roping.

Danger! Excitement! Action! This is the theme of Thursday evening at 7:30 p.m. the Fair. A 50-head jackpot bull buckout will pit man against beast in what Church, 9 a.m.; Youth Rodeo, 10 a.m. the Sportswriters of America have voted as the most dangerous sport! A barrel racing will spotlight the ladies

A new event this year will top off Thursday's lineup. Youths four to six years old will exhibit their riding abilities in a mutton busting!

Fast paced action continues on Friday and Saturday evenings with two full days of the true American sport-rodeo!

This year's rodeo will also be sanctioned by the CPRA, the Cowboy's Professional Rodeo Association. The CPRA is the largest pro rodeo association in Texas. CPRA cowboys will be working towards building their points for the finals to be held later in the fall.

Rodeo productions are made possible by Rafter "D" Rodeo Company of Fulshear. Smokey Davis and his wife, Betty, are part of a four generation rodeo family that provide stock and produce rodeo entertainment all over south central Texas.

Sanctioned rodeo events will include some of professional rodeo's wildest, most unpredictable action in the bareback bronc riding. In this event, the cowboy tries to stay aboard a jumping, bucking, twisting horse while holding onto only a leather strap about the size of a suitcase handle.

Saddle bronc riding, pro rodeo's "classic" event will set cowboy against bucking horse. The most popular event with spectators in pro rodeo, bull riding will match top cowboys against Rafter "D" bucking

In the timed events, steer wrestling or "bulldogging" calls on cowboy's muscle, courage and determination to jump from the back of a running horse (traveling about 35 miles per hour) onto the back of a steer that weighs from 500 to 700 pounds, then wrestle the steer to the ground as quickly as possible.

JOHN B. MYRES, D.D.S. Views On Dental Health

234-3525 Located on 90-A at Laughlin Road

AVOIDING PAIN

An infected tooth or root gives warning signals, such as sensitivity to heat, cold and sweets, etc. When the problem is an infected gum, however, there may not be any warning signs of gum trouble until a painful abscess has formed.

Both tooth decay and gum disease are caused by bacteria, although the kinds of bacteria involved are different. Avoiding these dental problems and the pain they can bring means doing what you can to prevent bacteria from adhering to teeth and gums. Good oral 3525.

One of the best reasons to see your hygiene at home is the first step. Howdentist regularly is to avoid the pain that ever, even the best of home care may can come with an infected tooth or gum. not be successful. Tooth and gum prob-

lems may still develop. The gelatinous material that covers the bacteria is called plaque. When this hardens or becomes calcified, the result is tartar, which should be removed at regular intervals to protect your teeth

Medical Explorer Post meeting is Sept. 12

Gulf Coast Medical Center (GCMC) is sponsoring a Medical Explorer Post to help young men and women explore future opportunities and prepare them to make choices about careers in the medical profession. Students ages 14-20 are invited to attend an orientation meeting Wednesday, Sept. 12, at 6 p.m. in the GCMC classroom. Members of the Explorer Post will have the opportunity to learn about and experience the many aspects of the medical profession by talking to experts in the field, participating in hands-on projects and taking field trips. For more information, call Nancy Chapman at 979-282-6178.
