Stake a claim...

It's your money! Financial institutions and businesses report unclaimed cash and valuables to the state every day from unclaimed checks, deposits or refunds, to the contents of forgotten safe deposit boxes.

This is valuable property that may have slipped through your fingers, and Carole Keeton Strayhorn wants you to have it back. Each year the Comptroller office publishes a list of abandoned property reported to them with the hope that you will find your name and claim your money.

Look for your name or business name on this list under the city in which you are currently living or under any other Texas cities where you have lived in the past.

If the state is holding property that belongs to you, they want to help you get it back.

It's never too late to get it back! Over the past year, the state has returned more than \$75 million of unclaimed property to claimants or their heirs.

If you find your name on this list, or if you have found your name in the past but never followed up, your money will be here until you claim it.

Visit www.window.state.tx.us/up or call 1-800-654-3463. The web site allows you to view additional information to assist you in deciding whether to file a claim for the property and follow the corresponding directions to receive a claim form.
