...Little things mean a lot
By Patty Holloway

I have a "feel good" story to share with you and the money I am going to tell you about is a "little" money but somebody with a "big heart" made a "little" child have a better day.

Two young children came into the library the other day to use the computers and one child had the required computer card but the other child did not have the required computer card and she was told there was a 50¢ fee for a replacement card. It was obvious looking at this child that she experienced few of life's "frills" so she quietly said she would just watch her friend.

The community service worker that was cleaning the chairs (and do-

ing a really good job of it) in the library in order to pay her traffic fine heard this conversation. She called to the child and told her to step out into the entry hall and in just a moment the child came back into the library with 50¢ in her hand.

The community service worker also came back in and continued to clean the chairs, this time with a smile on her face.

I want to thank her for showing us "that little things mean a lot". By the way these two people represented two different ethnic backgrounds.

I feel good and I know the stars of this little story feel good and I hope if you read this you will feel good too.
