## Council Approves Sewer Work Bid

Tuesday, March 28, the Eagle Lake City Council approved a bid submitted by Mercer Construction for work on the city's sewer system.

The work is being paid for using a \$350,000 grant from the Office of Rural Community Affairs (ORCA).

City Manager Ron Holland said that after engineering and administrative costs, there would be \$322,000 available for work on the city's sewer system.

He advised that after the work is done, the city will get an invoice from Mercer and will then receive the funds from ORCA to pay for the work.

Holland said that the bulk of the work will involve replacing three sewer lines in the Rice Mill area of town.

Lines will be replaced on Stevenson, Shirley and McCreary Streets. Lines will also be replaced on one block of Fairview and North Streets.

Holland said that the existing lines in these areas are deteriorated and in need of replacement.

Holland advised that the lines will be the same as the original, eight-inch.

In all, about 4,000 feet of new line will be installed.

He said that a number of manholes around town will also be replaced.

Holland said that it would probably be 60 to 90 days before work would get underway.

Council accepted the Mercer bid of \$222,330 plus an extra \$16,500 to bore under the streets instead of digging them up.

Holland recommended the extra for boring under the streets because of the work that was done on the streets last year.

Three other bids were submitted by Uticon, Inc. of Rosenberg

(\$235,162), Supak Construction of Orchard (\$278,295), and Horseshoe Construction of La Porte (\$310,456).

Holland said that the city has done work with Mercer before and have been happy with the results.

In other action:

-Council voted to cancel the May election as there are no contested races. Mike Morales will retain his seat as Mayor and John Young will return to his seat on council. Chris Schuurring will replace Eric Nethery, who did not seek re-election, on the city council.

-Council voted to purchase a new phone system for city hall. Holland advised that there have been problems with the current system for a while, and that it needed to be replaced. The cost of the new system will be \$4,525 and will be installed by Condra of Columbus.

-Council also agreed to buy a new 15-foot flex wing mower for use on the property at the airport. The mower will cost about \$11,000.

-Council voted to purchase accounting software at a cost of about \$8,400.
