

Texas Czech Genealogical Society Hosts Event April 22

In January of this year, the Texas Czech Genealogical Society (TCGS) announced their theme throughout the year would be "Tracking Our Footprints". With the theme as their guide, they are seeking to help all individuals who are searching the paths of their Czech ancestors throughout Texas, the United States and the Czech Lands of Bohemia, Moravia and Silesia.

On Saturday, April 22, the Texas Czech Genealogical Society will host a research opportunity of a lifetime. Hundreds of books will be made available beginning at 10 a.m. in East Wing

of the Nueces County Memorial Agricultural Center, located at 900 East Ave. J, in Robstown. These books will help all those concentrating on Czech genealogy.

Two guest speakers will add to the day with their timely presentations. In the morning, Edwin Wallek, Jr. will help us remember moments in our childhood with his presentation on Home Remedies. Edwin asks that if those planning to attend have any antique medicine bottles, or newspaper ads to bring them along. Not only will these add to the presentation but an open forum will follow his

presentation.

Following a lunch of roast beef, mashed potatoes, gravy, green beans, dinner rolls, tea and a dessert; Patrick Janis of Victoria will help attendees with his presentation on Organizing Your Research Materials. This presentation, given at the genealogy conference hosted by TCGS last year, is one that is often requested because of the many helpful hints Patrick introduces.

The days activities will run from 10 a.m. to 2 p.m. The cost for the entire day, which includes lunch and both presentations, will be \$8 per person if registered before April 14. Send registration fee to: Sallie Wendt, 361 N. Post Oak Lane #145, Houston, TX 77024, 713-682-6262. After April 14 and

at the door, registration will be \$10 per person. More information can be found on the TCGS website at www.tczgs.org

Dental Benefits Available To Kids In CHIP

Young Texans in the Children's Health Insurance Program (CHIP) now have an even bigger reason to smile. Starting April 1, CHIP is expanding to include dental benefits, including regular check-tips and other critical dental services.

"CHIP is a great program that has just been made better with the addition of dental benefits," says Texas Health and Human Services Executive Commissioner Albert Hawkins. "For families who are struggling to make ends meet, CHIP can make a big difference."

Dental benefits for children in CHIP include routine check-ups, cleanings, X-rays, sealants, fillings, tooth removal, crowns/caps and root canals.

Families with children enrolled in CHIP will receive a letter and handbook explaining the dental benefits, a member ID card and a directory of participating dentists.

CHIP provides health care coverage for children in families who earn up to 200% of the federal poverty level. That's \$40,000 a year for a family of four. In addition to dental services, CHIP covers doctor visits; immunizations; hospital care; behavioral health services; surgery; X-rays; physical speech and occupational therapies, prescription drugs; vision services; emergency services; and, transplants.

To start an application or get more information about CHIP, call 800-647-6558. Assistance is available in English and Spanish from 8 a.m. to 8 p.m. Central Time, Monday through Friday.

Nurse Refresh Course Offered Through Blinn

A refresher course for inactive registered and licensed vocational nurses interested in re-entering their profession is being hosted by Blinn College in conjunction with Austin Community College through the Virtual College of Texas.

The first course will begin June 26 and continue through Oct. 16.

The course is produced on line, providing a flexible alternative to traditional classroom-based refresher courses. In addition, students must complete a clinical preceptorship coordinated by Blinn.

"The overall goal of the project is to provide a distance learning nursing refresher course that results in an increase in the number of nurses accessing such programs in the state of Texas," said Craig McCollor, Blinn's continuing education Virtual College of Texas coordinator. "This project helps nurses reconnect with healthcare."

The deadline to register for the first class is June 19. Only 10 students will be accepted into the first course, so early registration is encouraged, McCollor said.

The course will be repeated Aug. 21 and continue through Dec. 11. The registration deadline for the 10 spots in that class is Aug. 14.

More information about the course is available at <http://blinncollege.vct.org>.

Students interested in registering for the courses should contact McCollor at craig.mccollor@blinn.edu. To register by phone using a credit card, call (979) 209-7205 or visit the Blinn College Workforce Education office at 301 Post Office St. in Bryan.

Birth, Death Certificates Online

Birth and death certificates can be ordered online, the Texas Department of State Health Services announced recently.

Previously, the certificates could be requested only by mail, fax or by visiting the DSHS vital records unit in Austin or one of the 490 local registrars' offices throughout the state.

Certificates may be ordered online at www.texasonline.com.

DSHS Chief Operating Officer Randy Fritz said, "Customers needing copies of birth or death certificates should find the speed and convenience of the new online ordering system a real timesaver."

He clarified that while certificates can be ordered online, they cannot be downloaded or printed.

Online ordering of a birth certificate for a birth that occurred in the last 75 years is limited to the individual for whom a birth certificate is requested and to the mother or father of that individual.

Online ordering of death certificates for deaths that occurred within the last 25 years is limited to the surviving spouse, a parent of the deceased and to certain funeral directors.

Verification of any birth, death, marriage or divorce-regardless of date-also is available online.

Forms for ordering by mail can be downloaded from the DSHS website, www.dshs.state.tx.us.

TexasOnline.com is the official eGovernment website for the State of Texas.

Asthma: Short Term & Long Term Control

Asthma is a fairly common condition that causes a person's airways to become inflamed or swollen. Symptoms may include coughing, wheezing, chest tightness, and shortness of breath. Asthma symptoms can be worsened by allergens (animal dander, mold, pollen), irritants (cigarette smoke, air pollution, strong odors) or other factors (medications, food, reflux).

Asthma treatment falls into 2 main categories: drugs for quick relief and drugs for long-term control. Quick relief drugs include short acting inhaled bronchodilators, such as *albuterol* (Proventil®). This medication relaxes tight muscles around the airway. It works quickly but lasts only a short time. Long-term control drugs include inhaled steroids, long-acting beta-agonists, leukotriene modifiers, cromolyn (Nasalcrom®), and nedocromil (Tilade®). The long acting drugs must be taken every day to help prevent attacks from happening. Inhaled steroids, such as *beclomethasone* (Vanceril®), *budesonide* (Pulmicort®), *flunisolide* (Aerobid®), and *triamcinolone* (Azmacort®), help reduce airway inflammation. A group of drugs called leukotriene modifiers block substances that cause asthma symptoms and include *monte-lukast* (Singulair®), *carfirlukast* (Accolate®), and *zileutin* (Zyflo®).
