## USDA Announces Water Well \$

Agriculture Under Secretary for Rural Development Thomas C. Dorr announced the availability of \$990,000 in funds to help qualified non-profit organizations establish lending programs for rural household water wells.

"The Household Water Well System Grants complement our community water loan and grant program by funding individuals who receive their water from wells," said Dorr. "Many who live in rural America do not live in towns and communities where a centralized water system is feasible. This program helps to meet that basic human need: access to clean, safe drinking water."

The Household Water Well System Grant Program (HWWS) provides funds to private non-profit organizations for them to make loans to individual homeowners to construct or upgrade household water well systems.

The applicant must contribute a matching amount equal to at least 10 percent of the grant request to capitalize the loan fund. Since the program was created in the 2002 Farm Bill, Rural Development has made 5 grants for \$2,286,100.

The deadline for applications to be submitted is May 31, 2007. Applications may be submitted electronically through [www.grants.gov](http://www.grants.gov). Paper applications may be submitted to the U.S. Department of Agriculture, USDA Rural Development Utilities Programs, Mail Stop #1570, Room 2233-South Building, 1400 Independence Avenue, SW, Washington, DC 20250-1570.
