# Water Conservation Tips

As the heat of the summer hits, many homeowners are spending more time watering their lawn and landscape. In fact, experts estimate that July is one of the top months for landscape water use. That's why the Irrigation Association (IA) has designated July as 'Smart Irrigation Month'.

Nationwide, landscape irrigation is estimated to account for almost one-third of all residential water use, totaling more than 7 billion gallons per day.

Experts estimate that up to 50% of that water is lost due to over-watering, evaporation, or bad irrigation system design and maintenance.

Here are some tips from the water management experts at Toro on how you can water your lawn and landscape with the utmost efficiency.

Put a layer of mulch around your plants. Mulching helps to retain moisture and prevents evaporation. A generous amount of 3-to-5 inches is best.

Raise the blade on your lawn mower. Closely cropped grass requires more water.

Recycle your grass clippings back into your lawn by using a mulching mower. You'll not only conserve water, you'll save time while mowing.

If you use a hose and portable sprinkler, buy a hose end timer to regulate your watering time.

Consider installing a home irrigation system. Properly installed automatic sprinkler and drip irrigation systems can eliminate

the time and hassle of hauling hoses around your property. More important, irrigation systems decrease water consumption by improving the accuracy, timing and delivery of water, reducing runoff and preventing over watering.

If you already have a home irrigation system, consider upgrading your timer. New technology makes it easier than ever to program and monitor your watering needs.

Also, make sure your system has a rain sensor. Many states and local water districts now require rain sensors that interrupt the watering program when a specific amount of rain has fallen.

Sweep your sidewalks and driveway rather than hosing them down.

Plant native plants that are adapted to your climate; they require less watering and can reduce outdoor water use by 20 to 50%.

Install a drip irrigation system around your shrubs, hanging baskets, flower and vegetable gardens. Drip irrigation systems use 50% less water than conventional sprinklers.

The best time to water is in the morning. Watering during this time of day reduces the amount of evaporation and allows plants to dry out during the day, which cuts down on diseases.

Group plants with similar watering needs together.

Remove weeds regularly as they compete with your lawn for water.

# HOROSCOPES

**ARIES - Mar 21/Apr 20**  
Aries, there's no time like the present to get your finances on track. Take a day to sit down and go through your checkbook and assess income and expenditures.  
**TAURUS - Apr 21/May 21**  
How much fun you have this week depends upon your outlook, Taurus. If you act glumly, you're certain to have a miserable few days. Keep your chin up instead.  
**GEMINI - May 22/June 21**  
The next few days will be nothing to write home about, Gemini. Use the quiet time to catch up on some chores you've been putting off. Now could be a good time to plan a vacation.  
**CANCER - June 22/July 22**  
Cancer, a health concern turns out to be nothing more than a minor inconvenience. Still, it's a good time to go for a checkup and to rule out any other issues.  
**LEO - July 23/Aug 23**  
Leo, an avoidable situation at work causes a few headaches. You'll rebound quickly, however. New projects will pop up and you will focus your mind elsewhere.  
**VIRGO - Aug 24/Sept 22**  
Focus on pampering yourself this week, Virgo. You do so much for other people that you deserve

a little relaxation. Visit a spa or take a trip for a change of scenery.  
**LIBRA - Sept 23/Oct 23**  
Libra, don't keep too many secrets from your sweetheart, otherwise you could end up in trouble. Honesty still remains the best policy in any situation.  
**SCORPIO - Oct 24/Nov 22**  
Things seem worse than they really are, Scorpio. Think positively and you'll find that a more positive outlook will definitely change your perspective.  
**SAGITTARIUS - Nov 23/Dec 21**  
You have to come up with a long-term plan, Sagittarius. You can't just jump from one thing to another without having a goal. Sit down and write out your thoughts.  
**CAPRICORN - Dec 22/Jan 20**  
Don't expect all of your plans to go off without a hitch this week, Capricorn. Something is bound to go awry when you least expect it. You'll rebound quickly, however.  
**AQUARIUS - Jan 21/Feb 18**  
You're indecisive this week, Aquarius, so you're bound to make rash decisions instead of thinking through all of the options rationally.  
**PISCES - Feb 19/Mar 20**  
Don't believe everything that is told to you, Pisces. There are those who you may think you can trust who are looking to deceive you.
