

TrafCo Industries, Inc. at 414 West Main is the Eagle Lake Civic Garden Club's Yard of the Month for August.

TrafCo Named August Yard Of The Month

By Patty Holloway
TrafCo Industries, Inc. at 414 West Main is where you will find the Yard of the Month sign this month. This is a very interesting and attractive planting and a good

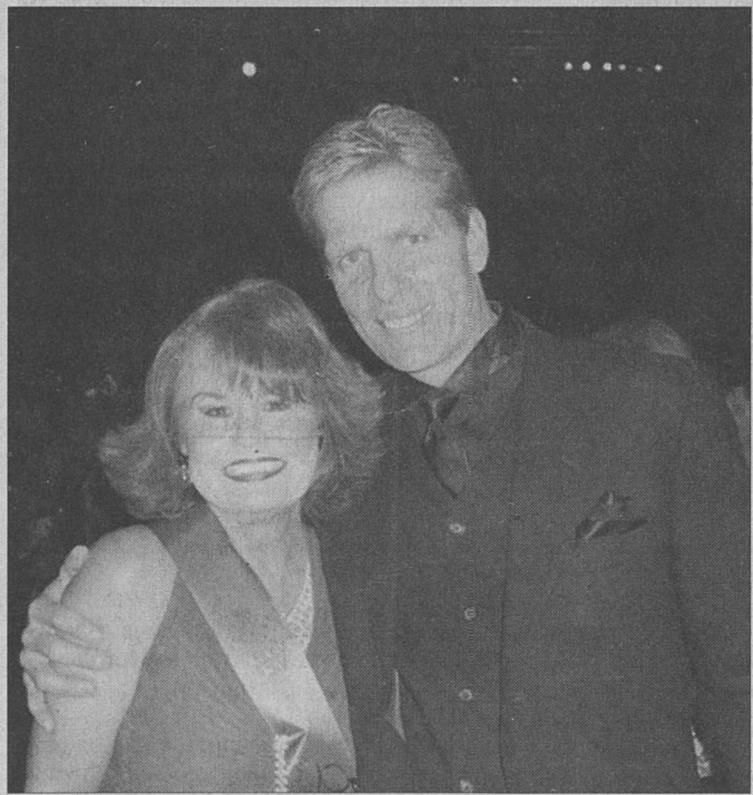

example of how pretty a xeriscap garden can be. The purple fountain grass is eye catching and the plumbagos crepe myrtles and espranzas all make lovely blend.

TrafCo Industries, Inc. was incorporated in Eagle Lake in August of 1993 by Lonny Daley and Lesley Matthews Carey. The business manufactures and retails all types of traffic

safety produces but specializes in construction grade signs and delineators. Thanks for giving all of us such a "bright" spot to enjoy as we travel down West Main.

Sugary Foods

The main culprit behind cavities isn't amount of sugar in foods. The real issue is how long food stays on teeth. Chocolate, for instance, isn't so bad, since it's not particularly sticky and saliva easily washes the sugar way. The biggest tooth destroyers are often "healthy" foods in disguise. Things like sugared cereals, dried fruits, and chewy fruit leathers cling to kids' teeth for a long time. Rather than ban sweets altogether, limit them to immediately after meals. The saliva your child produces when he chews other foods helps remove the sugars. Also, make sure your child brushed and flosses daily, and encourage him to drink plenty of water throughout the day to flush bacteria from the teeth.
