8-1-1 WHEN IT COMES TO DIGGING SAFELY, YOU MAKE THE CALL

Whether you're working on a large excavation or simply planting a tree in your yard, natural gas and utility line safety should always be job one—and that starts with calling 8-1-1 to have your utility lines marked. By doing so, you can be certain where your electric, gas, water and other important lines are located as well as avoid causing serious injuries, service interruptions or possibly costly fines for damaged infrastructure. Make the call. Respect the lines. Dig with care. After all, safety is in your hands... but always on our mind.
