Hay Fraud Alert Given

Producers should be aware of a hay fraud scam that is currently being attempted on producers in Texas and Arkansas and maybe in other states.

The scam is initiated by someone contacting a local producer from out of state claiming they are interested in purchasing an amount of hay, 15 round bales in Hempstead, Van Buren, and Washington counties, Arkansas and 60 round bales in Smith County, Texas.

The person needing hay, supposedly from out east, sends the producer a 'cashiers' check for the purchase price.

In the Texas case, the 'buyer' requested that the producer deposit the check and provide \$1500 to the 'hauler' and an additional \$1500 to a 'broker'.

In each of the cases, the 'buyer' would have gotten a free load of hay and the 'hauler' and 'broker' would have received money from the producer.

In each of the cases, producers asked banks to evaluate the checks and each case the checks were found to be fraudulent.

Before selling any hay to anyone that is not personally known, producers should ensure that the checks they are being paid with are legitimate, even with supposed 'cashier's checks'.

If you suspect you are the potential victim of a scam, report the action to your local law enforcement authorities.

For More Information contact: Jerry at ronpaul@awesomet.net or 979-234-7393.

A little bit about Ron Paul: Texas Congressman Ron Paul is the leading advocate for freedom in our nation's capital. As a member of the U.S. House of Representatives, Dr. Paul tirelessly works for limited constitutional government, low taxes, free markets, and a return to sound monetary policies. He is known among his congressional colleagues and his constituents for his consistent voting record. Dr. Paul never votes for legislation unless the proposed measure is expressly authorized by the Constitution. In the words of former Treasury Secretary William Simon, Dr. Paul is the "one exception to the Gang of 535" on Capitol Hill.

Brief Overview of Congressman Paul's Record:

He has never voted to raise taxes.

He has never voted for an

unbalanced budget.

He has never voted for a federal restriction on gun ownership.

He has never voted to raise congressional pay.

He has never taken a government-paid junket.

He has never voted to increase the power of the executive branch.

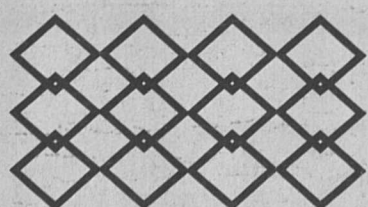

He voted against the Patriot Act.

He voted against regulating the Internet.

He voted against the Iraq war.

He does not participate in the lucrative congressional pension program.

He returns a portion of his an-

nual congressional office budget to the U.S. treasury every year.

Congressman Paul introduces numerous pieces of substantive legislation each year.

LCRA/SAWS Study Starting To Answer Questions

Some answers are emerging from a multiyear study of a water-sharing plan for the Colorado River basin and the San Antonio area, but the verdict is still out on whether the proposal is viable, 125 residents and stakeholders were told at a project update meeting Oct. 30.

The Lower Colorado River Authority (LCRA) is studying the proposal to develop, conserve and share water with San Antonio Water System (SAWS).

LCRA hosted the meeting in El Campo to provide an update on scientific studies, now in their fifth year.

The study period is scheduled to end no later than 2015.

The LCRA/SAWS Water Project proposes to reduce demand for water for irrigated agriculture and to produce more groundwater for use by farmers in Colorado, Wharton and Matagorda counties.

The project also proposes building a holding basin, or off-
