**No matter where you bale, New Holland Twine prevails.**

From Tucson to Tallahassee, from Cedar Rapids to Columbus... It really doesn't matter where you bale. But, it does matter what twine you use.

When the weather's ripe for baling, speed and reliability are critical. The last thing you need are delays because of poor quality twine or netwrap. So think twice the next time you're tempted to buy bargain brand twine and netwrap. It probably isn't worth the risk.

Only genuine New Holland twine provides uniform tensile strength that minimizes tying problems and creates strong, tight bales. Choose from natural fiber twine or plastic twine. Both are available in a variety of strengths for different bale weights.

Select WhiteNet™ white netwrap or Fastnet™ black netwrap. Fastnet, a New Holland exclusive was designed specifically for use in your New Holland round baler. WhiteNet and Fastnet wrap bales edge to edge, locking in nutrients. You'll wrap bales tightly in just two turns and produce bales that shed the elements!

No matter which type of genuine New Holland twine or netwrap you choose, you can trust New Holland. Visit our New Holland dealership and talk to us about how we can make this year's baling season hassle-free. We'll keep you on the tractor, not behind it making adjustments.
