

Mr. and Mrs. Jason Crosby

Waddell, Crosby Exchange Vows

The First Presbyterian Church in Eagle Lake, Texas was the setting for uniting in marriage of Risa Gail Waddell to Jason Ronald Crosby on Saturday, December 27, 2008 at half after 5 p.m.

The double ring ceremony was officiated by The Reverend Edward Triem. Music for the ceremony was provided by organist Margaret Mascheck and soloist Samantha Labay. A reception immediately followed in Columbus at the Stafford Opera House.

The bride is the daughter of Beth Waddell and Davis and Janie Waddell all of Eagle Lake. She is the granddaughter of Elizabeth Waddell and the late Mr. and Mrs. Roger Hauenstein and Mr. Raymond Waddell.

The groom is the son of Mr. and Mrs. Mark Crosby of Jersey Village. He is the grandson of Mr. and Mrs. Douglas Crosby and Mrs. Loretta Wright and the late Mr. Ralph Singleton and Mr. John Wright.

Given in marriage by her parents and escorted by her father, the bride chose a strapless ivory gown with a fitted bodice embellished with lace and crystals.

The full skirt had soft ruffles alternated with lace ruffles flowing into a train of the lace ruffles. To compliment the ensemble, Risa wore a fingertip veil that was

edged with clear crystals. The bride carried a bouquet of white lilies, white hydrangeas, and red iolite berries tied with ivory satin ribbon.

The bridal party wore full-length holly green dresses. They each carried bouquets of white lilies and red iolite berries tied with ivory ribbon.

Serving as Risa's Maid of Honor was her sister, Miss Leslie Waddell. Matron of Honor was Mrs. Carrie Grigar. Bridesmaids were Mrs. Jordan Graham and Risa's cousin Ms. Lauren Waddell. Mrs. Joanie Esparza read the scripture. Grace and Paige Gibbs were flower girls with Master Gunner Grigar as the Ring Bearer.

Jason's brother, Justin Crosby, served him as Best Man. Grooms-men were Nick LyMBERopolous, Matt Melnar and Ryan Nesloney. Ushers were Hank Cranek, Malcom Dinges, Ryan Kilmer, Kevin O'Kelley and Jonathan Pope.

Risa is employed by the Lamar Consolidated ISD as a third grade teacher. She plans to complete her master's degree in administration and supervision in May 2009.

Jason is employed as an engineer at Southwest Formseal in Pearland. Following their honeymoon to Riviera Maya, Mexico, the couple will reside in Richmond.

DENTAL X-RAYS

Dental x-rays are important for a number of reasons. They can expose hidden dental decay, reveal a dental abscess, cyst, or tumor, show impacted teeth, and also help determine the condition of fillings, crowns, bridges, and root canals. X-rays can also reveal bone loss from periodontal disease, locate tartar buildup, find foreign bodies within the gum or bone, and see if there is enough bone for the placement of dental implants.

Some people worry about their exposure to radiation during dental x-ray procedures. Dentists are very concerned about minimizing the amount of radiation a patient receives at the dental office. Special high-speed film and lead aprons are used during x-ray procedures.

Twenty dental x-rays (called a full series), delivers 56,000 times less radiation than an upper GI series, 800 times less radiation than a chest x-ray, and 40 times less radiation than a typical day of background radiation.

Dental x-rays are both safe and effective, and are a valuable diagnostic tool.
