## Ag Department Market Recap Given

For the week ending May 16, feeder cattle price trends at Texas auctions were mixed, with most locations steady to \$4 higher per hundredweight, but a few steady to \$3 lower.

Fed cattle prices were higher as beef prices increased.

Cotton prices were lower amid

higher global supplies and weaker demand.

Grain markets declined late in the week on expectations for good planting progress in the Midwest and lower crude oil prices.

As for futures markets, feeder cattle, finished cattle, cotton, wheat, corn and lumber ended the week lower.

Widespread rain showers fell late in the week with rainfall amounts varying from a trace to six inches.

Topsoil moisture ratings ranged from surplus in areas of North Central and East Texas to very short in parts of Plains, West and South Texas.

Wheat harvest progressed to

three percent complete, with 90 percent of the crop headed.

Corn planting was 94 percent complete and six percent of the acreage was tasseling.

Grain sorghum was 73 percent planted and five percent headed.

Pastures have improved with the recent rains and were rated in mostly good to fair condition.

Members of the San Bernard Electric Cooperative, including Colorado County residents Billy Goodwin (far right) and Co-op Chairman Gus Miller (far left), met with local Congressman Lloyd Doggett during a recent trip to Washington. They discussed the important role of electric cooperatives in fostering rural economic development.
