

Prairie Waterfowl Hunts Based In Eagle Lake

Prairie Waterfowl Hunts is located a short hour's drive from downtown Houston, or about 160 miles east of San Antonio.

Eagle Lake is the Goose Hunting Capital of the world. All of us here at Prairie Waterfowl Hunts have hunted geese and duck for most of our lives. We are all second and third generation residents and hunters of the Texas Gulf Coast.

Our hunting grounds include rice fields and ponds, especially prepared for migrating waterfowl. Prairie Waterfowl Hunts is located just a short drive from the town of Eagle Lake.

We have about 20,000 acres of prime hunting land from which we select our hunting spots.

We have made many lifelong friends hunting these prairies, and hope to add your name to the list.

Our guarantee to you, the hunter, is to have an enjoyable hunting experience on some of the most productive waterfowl areas in south Texas.

Suggested Clothing
* Rubber Boots

* Camouflage Clothing
* Cold Weather Gear
* Rain Gear
Transportation
* Your Responsibility
Guns and Ammo

* Non-Toxic Steel Shot Only
* Bring your favorite gun
* We suggest 12 gauge or larger
My objective is for you to have a memorable and enjoyable hunting

experience. In the past, I have made many life-long friends hunting the prairies of Eagle Lake, and I hope to add you to this list.

I am a third generation hunter and feel confident that, with my

knowledge and experience, I can give you a top quality hunt.

Looking forward to meeting you!

Harlan Boettcher, Owner

B&S Taxidermy Make Your Trophy Kills Last

B&S Taxidermy is located in the "Goose Hunting Capital of the World" Eagle Lake, Texas. Hunters migrate along with the migratory waterfowl to Eagle Lake for the ultimate Goose and Duck Hunting experience.

B&S Taxidermy is owned by Taxidermist Bobby Wied, a life-long resident of Eagle Lake and wife Shelly. We are open every day during hunting season. If we are not in, customers and visitors may reach us by phone anytime.

B&S Taxidermy recently celebrated their 10th Anniversary in their downtown Eagle Lake location.

Young and old, including the non-outdoor enthusiast, enjoy visiting our 2400 square foot studio to view many hundreds of different species.

We strive to make our customers happy with the preservation of their trophy. Customers may choose the mount style and include habitat if desired.

Some prefer a very basic mount on a panel or cedar tumbled driftwood. Others like the very explicit habitat scenes with natural vegetation and or water with splashes.

Our consistent track record of

providing quality mounts brings our clients back to us repeatedly.

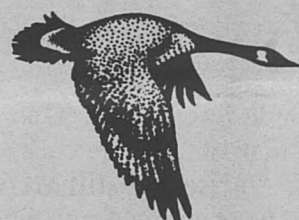

You may contact us anytime at 979-234-2473 or email us. Specimens may be mailed in for mounting. They must be accompanied by a Wildlife Resource Document.

Items need to be shipped overnight and on a Monday; arrangements and confirmation of your shipment must be made prior to shipping.

Ship to:

B & S Taxidermy
221 East Main Street
Eagle Lake, TX 77434

We look forward to preserving your trophies and memories! Please call for our competitive prices to preserve your trophy.
