Residential sewer averaging

Annual residential sewer rates are determined by water consumption from through March 15. The readings for these three months are averaged and that average will be your sewer charge for the next 12 months, starting April 1, 2010. Customers are encouraged to fix any water leaks as soon as possible and limit water usage (like watering grass or washing cars) in an effort to keep water consumptions at a minimum during this time. Each residential sewer rate is based on the actual water consumed at that particular location. If you have any questions, please call city hall at 234-2640.

The Eagle Lake Volunteer Fire Department received a check for \$500 from BP America, Inc. The money was presented to Assistant Fire Chief Darrell Stancik, left, by James Zickuhr an employee of BP. The money was given to the department for what they do for the community. BP supports groups that make up the fabric of America; organizations across the US that work to improve people's lives. Also in the photo is Zickuhr's son, Ryan.
