Back: Cullen Wiese, Matthew Trahan, Carlos Arias. Not pictured: Danielle Dopslauf, Chris Duarte, Amy Huggins, Nicole Rodriguez.

Please Vote For Edward Sunderman For Colorado County Commissioner Pct. 4

- For over 25 years, Edward Sunderman's business has the **reputation of the highest quality work, fixing it right the first time at a very reasonable cost.** This is how he plans to run the county by getting things done right, using innovative thinking and spending the least amount of money doing it.
- Edward Sunderman also wants to find ways to **lower the tax burden.** He knows first hand how difficult it is to make a living in the Eagle Lake area and knows that raising taxes to offset county overspending only hurts its constituents.
- Edward Sunderman also knows first hand how important the local medical facilities and emergency medical services are to our community. He vows to support these rural hospitals and the EMS any way he can. He also knows that the comfort of a familiar face makes just as much a difference in the care of the patient as the knowledge of the person giving the care. That is why Edward Sunderman will do what he can to make sure that the pay for local EMS personnel will continue, so that these employees will be an integral part of the EMS system. This ensures that **local people are taking care of local people.**
- Edward Sunderman has a question for Commissioner's Court. Why did the county have to raise taxes last year, put a freeze on salaries and in return give county employees raises in their retirement fund, and now within the same budget year begin talking about giving salary raises to employees? If there is that much money left to give all these raises, why did Commissioner's Court have to raise taxes this year? A lot of people have lost their jobs over the last few years and would love to have a steady job and instead of helping these people, we raise their taxes to give raises to county employees.
- Edward Sunderman agrees that employees need to be paid an honest wage for an honest day's worth of work. That is why Edward Sunderman believes that employees should be given **raises based on performance**, not across the board. This potentially could save the county a lot of money or it will ensure that employees continue to perform at the highest level.
- Edward Sunderman strongly believes in **ECONOMIC DEVELOPMENT** in Colorado County and most importantly in Pct. 4. With the future of area businesses like BAE Systems up in the air, Edward Sunderman wants to **find ways to bring jobs to Colorado County** to ensure that our residents have jobs.

If you didn't vote in the primary you can still vote in the run-off election!
